- Control room operator sequestration has been suspended, but the day shift will continue working at the Carmen Road location and the night shift will continue to work from the Krey Blvd location. If need be, operators will be re-sequestered.
- Office staff continue to work from home almost exclusively; we are watching NYS plans by regions and taking a conservative approach. Mr. Dewey noted that he is pleased with the way business has continued to run and hit milestones, and there is not rush to change that.

Mr. Dewey reported on the upcoming Joint Board of Directors and Management Committee meeting. The meeting, which was previously scheduled to take place at the Sagamore Resort, will now be held as a remote video enabled virtual session, replicating the past in-person format to allow for interaction between stakeholders and the Board members. This year’s topics are 1) Grid in Transition and 2) Navigating Unchartered Territory.
