Federal Energy Regulatory Commission
Secretary of the Commission
FERC Form No. 715
888 First Street, N.E.
Washington, DC 20426

Dear Sir/Madam:

I am pleased to hereby submit the New York Independent System Operator (NYISO) 2007 FERC Form No. 715, *Annual Transmission Planning and Evaluation Report*. The NYISO is submitting a Paperless filing again this year. As instructed, the filing is being submitted on the enclosed CDs: the first CD contains the entire report except the Part 2 power flow bases cases, and the second CD contains the Part 2 power flow base cases (input and output for six power flow base cases), an associated data-dictionary, and the EIA plant codes for generating plants referenced. The NYISO is submitting this filing its own behalf, and, as designated agent, on behalf of the nine New York State transmission owners/ operators identified in the report, namely: Central Hudson Gas & Electric Corporation, Consolidated Edison Company of New York, Inc., KeySpan Electric Services, LLC, Long Island Power Authority, New York Power Authority, New York State Electric & Gas Corporation, Niagara Mohawk, A National Grid Company, Orange & Rockland Utilities, Inc., and Rochester Gas & Electric Corporation.

The above organizations are “transmitting utilities” as defined in the Form No. 715 reporting requirements. The NYISO’s filing entirely satisfies all Form No. 715 data requirements for these utilities.

If you have any questions, please call or send me an e-mail.

Sincerely,

Steven L. Corey
Manager, Interconnection Projects
