

# NYISO Management Committee Meeting

August 10, 2005

Conference Call

10:00 a.m. – 11:15 A.M.

## **Draft MINUTES OF THE MEETING**

### **1. Introductions, Meeting Objectives & Chairman's Report**

Larry Dewitt of Pace Energy, Chairman, called the meeting to order at 10:02 AM and welcomed the members of the Management Committee ("MC"). The meeting objective is to:

- Act on the July 13, 2005 minutes.

### **2. Approval of the minutes**

#### **Motion #1:**

**Motion to approve the minutes of the July 13,2005 meeting.**  
*(Motion passed unanimously)*

### **3. President's Report**

Mark Lynch, President and CEO of the NYISO presented the President's Report. Mr. Lynch announced that the NYISO, on July 26,2005, experienced a new peak load record of 32,075 MW. Mr. Lynch praised the different sectors and their participation in maintaining the reliability of the grid during the high load days. On July 26 and August 3 the New York Control Area ("NYCA") went short of 30 minute reserve for minutes each day but was able to recover well in advance of the 4 –four -hour recovery time.

### **4. Project Status Update**

Rich Dewey of the NYISO noted that a number of software anomalies that have contributed to the high number of price corrections have been identified. Most of the anomalies have been fixed. Additional software changes will be deployed in August to address the OOM application committing combustion turbines incorrectly and to address generator operating status. The software release for RTD scheduling of 10-minute resources was delayed due to high load conditions. The new deployment date is scheduled for August 16. Mr. Dewey also noted that the UCAP auction automation deployment is slated for late September.

**5. New Business**  
None

**6. Adjourn**  
Meeting was adjourned at 10: 44
