

New York Independent System Operator, Inc.
 FERC Electric Tariff
 Original Volume No. 2
 Attachment H

~~First~~ Second Revised Sheet No. 477C
 Superseding ~~Original~~ First Revised Sheet No. 477C

7. EFFECTIVE DATE

These Mitigation Measures shall be effective as of the date they are approved by the FERC, or as specified in any Temporary Extraordinary Procedures approved by FERC for implementation coincident with the initiation of the ISO Administered Markets administered by the ISO.

8. ADDITIONAL MARKET MONITORING AND MITIGATION MEASURES

8.1 Sharing of Market Monitoring Information With ISO-NE

The ISO, the Market Monitoring and Performance Unit and the Market Advisor may exchange information, including Confidential and Protected Information, related to External Transactions at the Proxy Generator Buses representing the electrical interfaces between the NYCA and New England, with ISO-NE and the market monitoring unit for New England. Prior to disclosing Confidential and/or Protected Information to these entities, the ISO, the Market Monitoring and Performance Unit, and/or the Market Advisor shall secure a written commitment from ISO-NE and its market monitoring unit to treat such information as confidential under all applicable ISO-NE and/or NEPOOL tariff rules and other information policies and to comply with all ISO-NE procedures that are in place to protect Confidential and/or Protected Information. The ISO, the Market Monitoring and Performance Unit, and the Market Advisor shall treat all information related to External Transactions at the Proxy Generator Buses representing the electrical interface between the NYCA and New England that they receive from ISO-NE, its market monitoring unit, or its market advisor that is designated as Confidential or Protected Information as Confidential and Protected Information in accordance with Attachment F of the ISO OATT and the ISO's Market Monitoring Plan.
