Modify OATT and Services Tariffs Tables of Contents

- The majority of changes to the OATT and Services Tariffs have not included corresponding changes to the Tariffs' Tables of Contents (TOCs).
- The NYISO staff has been modifying the TOCs for the convenience of users. The number of changes make the TOC awkward to use.
- The NYISO would like to file updated TOCs with FERC prior to the changes for SMD.
- The TOCs would then be changed each time a filing is made.

Example of a Change:

- The addition of ATTACHMENT U - DECLARATION AND RECOVERY OF BAD DEBT LOSSES, beginning with Sheet No. 705 was made in the bad debt loss filing, ER03-180-000, November 13, 2002.
- The addition of ATTACHMENT U was conditionally accepted by FERC January 10, 2003.
- The OATT TOC needs to be updated to reflect this change.
