¹ Such status reports were directed by the Commission in *Preventing Undue Discrimination and Preference in Transmission Service*, Order No. 890, 72 FR 12266 (March 15, 2007), FERC Stats. & Regs. ¶ 31,241 (February 16, 2007) at PP 1308-1310, *order on reh’g*, Order No. 890-A, FERC Stats. & Regs. ¶ 31,261 (2007), *order on reh’g*, Order No. 890-B, 123 FERC ¶ 61,299 (2008), *order on reh’g*, Order No. 890-C, 126 FERC ¶ 61,228 (2009), *order on clarification*, Order No. 890-D, 129 FERC ¶ 61,126 (2009). The NYISO’s Open Access Transmission Tariff (“OATT”) was revised (effective September 13, 2008) to clarify that studies voluntarily undertaken by customers are not subject to the *pro forma* OATT’s sixty day completion deadline. (See *New York Independent System Operator*, Docket No. ER08-1527-000, “Revised Tariff Sheets” FERC Letter Order issued November 4, 2008, Sections 3.7 and 4.5 of the NYISO OATT. In addition, the revised NYISO OATT requires the NYISO to tender draft Study agreements thirty days after the scope of the Study Request is approved by the stakeholder Operating Committee, rather than within thirty days of the receipt of a study request as under the *pro forma* OATT.
