# **NYISO Management Committee Meeting**

March 20, 2003

New York State Nurses Association, Albany NY

# **MOTIONS FROM THE MEETING**

### Motion #1:

Management Committee supports the appeal by LIPA of the February 11, 2003 BIC vote failing to approve the motion to reopen the market for ten minute non-synchronous reserves for the limited procedural purpose of advancing this motion to the Management Committee.

(Motion passed with 68.77 % affirmative votes)

#### Motion #2:

WHEREAS, the NYISO staff and Market Participants in the S&P Working Group have undertaken a process to review the feasibility of reopening the market for 10 minute non-synchronous reserves, including consideration of proposals to lift the existing bid cap applicable in that market; and,

WHEREAS, the NYISO staff presented its proposal for reopening this market to the Management Committee at its March 20, 2003 meeting;

NOW, THEREFORE, the Management Committee recommends that the Board concur in a filing to be made to the Federal Energy Regulatory Commission to propose that The OATT and Services Tariff be amended to provide for the reopening of the market for 10 minute non-synchronous reserves, consistent with the recommendations of the Market Advisor and the NYISO staff presented to the Management Committee at its March 20, 2003 meeting.

Provided, however, that the NYISO shall be authorized, during a Transition Period of 12 months, to make a sec. 205 filing to request, if necessary, authority to reimpose the present bid cap or other mitigation measure, upon the recommendation of the NYISO Market Advisor that such measure is warranted by competitive conditions in the 10 minutes NSR market; and provided further that the NYISO shall include in the proposed tariff amendments reopening the 10 minutes NSR market a request for authorization, during the Transition Period, to make subject to redetermination, in accordance with a reimposed bid cap or other authorized mitigation measure, all flagged 10 minute NSR clearing prices that the NYISO determines, with the concurrence of the Market Advisor, may reflect a significant abuse of market power. The ISO shall notify the market within 24 hours of posting when prices may reflect a significant abuse of market power; in the event no subsequent filing is made the ISO shall notify the market within 5 business days of the notice that the prices are final.

The Management Committee also supports the investigation, as soon as reasonably practical, of alternative operating reserve cost allocation methods including but not limited to locational pricing for loads.

(Motion passed with 59.06 % affirmative votes)

#### Motion #3:

Motion to approve further modifications to pricing and settlement rules at non-competitive proxy generator buses to

- (i) Identify the components of the prices that result from implementation of previously approved rules for setting real-time prices at non competitive proxy generator buses in a manner that will ensure that the calculation of these components is as consistent as possible with the methods that are used to calculate these components of prices at these external proxy buses when these special rules pertaining to the calculation of prices at noncompetitive proxy generator buses are not applied, and
- (ii) To pay Bid Production Cost Guarantee payments for Real Time import transactions at non-competitive proxy generator buses only when the interface, at which the non-competitive proxy generator bus is located, is not export constrained.

(Motion passed unanimously by show of hands with abstention)

## Motion #4:

Motion to approve the Minutes of February 13, 2002

(Motion passed unanimously by show of hands)
