

## Loads Universe

- In DSS prior to SMD Release
- Effective for both Pre and Post SMD Billing Days
- Calculation is the same for both Pre and Post SMD Billing Days.

- Approval granted to display zonal/subzonal load for J (NYC) & K (Long Island) separately
- Subzone Totals class merged w/ Zone/Subzone class. DAM and RT Subzonal Load objects are all located in the Zone/Subzone class.

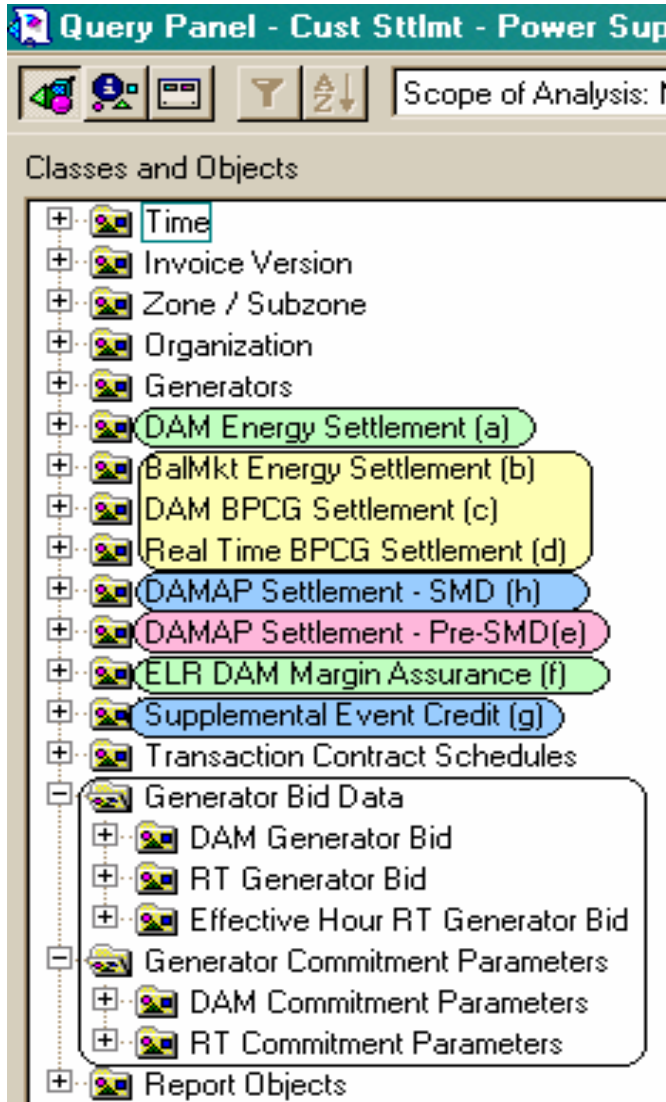

## Loads Ancillary Services Universe

- In DSS prior to SMD Release
- Effective for both Pre and Post SMD Billing Days
- Calculation is the same for both Pre and Post

- In DSS prior to SMD Release
- Effective for both Pre and Post SMD Billing Days
- Calculation changed for Post SMD Billing

- New settlements for Post SMD Billing Days

## Power Supplier Universe

- In DSS prior to SMD Release
  - Settlement only for Pre SMD Billing Days
- 
- In DSS prior to SMD Release
  - Effective for both Pre and Post SMD Billing Days
  - Calculation is the same for both Pre and Post
- 
- In DSS prior to SMD Release
  - Effective for both Pre and Post SMD Billing Days
  - Calculation changed for Post SMD Billing Days
- 
- New Settlements for Post SMD Billing Days
- 
- Additional Classes included with the SMD Release
