Final Motions

Motion #1:

The Management Committee hereby recommends that the Board of Directors approve the proposed Rate Schedule #1 Revenue Requirement for the 2017 budget year as described in the presentation materials for the October 26, 2016 Management Committee meeting, subject to the following provisions:

Revenue Requirement – The Revenue Requirement is \$148.2 million.

Rate Schedule #1 – The budgeted Rate Schedule #1 is \$0.936/MWh.

Spending Under-runs – If a spending under-run occurs, the related funds should be utilized to pay down the principal amount of outstanding debt or reduce anticipated debt borrowings.

Volume Over-collections – If an over-collection on Rate Schedule #1 occurs, the related funds should be utilized to pay down the principal amount of outstanding debt or reduce anticipated debt borrowings.

The motion passed unanimously by show of hands with two abstentions

Motion #2:

The Management Committee hereby approves tariff language not inconsistent with the following paragraph.

The Management Committee hereby approves the proposed tariff language to the extent it is not inconsistent with the following proposal, the methodology in the NYISO's Export Capacity Proposal as presented to the Management Committee on October 26, 2016 on an interim basis, due to the lack of sufficient time to adequately analyze the NYISO's methodology and pending further analysis of the methodology and possible alternatives; provided, however, that due to a very large and sudden impact of ISO-NE rule changes on New York consumers that gave rise to the NYISO proposal, the NYISO proposal will be phased in so that for ISO-NE's 2017/2018 Capability Year, the NYISO will set the Locality Exchange Factor for exports from the G-J Locality to ISO-NE to 80% to offset the impact of capacity exports, if any, rather than modifying the ICAP demand curve to offset the portion of exported capacity identified in the NYISO proposal. ICAP demand curves for the NYCA will remain unmodified; consequently, capacity exports to neighboring control areas will be fully reflected in capacity prices set using the NYCA ICAP demand curve, just as under the NYISO's proposal. The NYISO's Export Capacity Proposal, as presented to the Management Committee on October 26, 2016, will be fully implemented starting in the 2018/2019 Capability Year and continuing until and unless the NYISO receives FERC approval to implement a different treatment of capacity exports from a locational capacity zone to a neighboring region.

Additionally, the NYISO commits to work with Stakeholders further on this issue in 2017. The ISO will conduct an evaluation with its stakeholders of additional modifications to the rules addressing Locational Export Capacity from Import Constrained Localities presented at the October 20, 2016

BIC meeting. The NYISO shall report on its progress at the January and April BIC meetings in 2017, and to the NYISO Board at its January and April 2017 meetings. On or before June 1, 2017, the ISO will file with the Commission either an informational report on the evaluation or a filing proposing to amend the ISO Tariffs

The motion passed by 63.62% affirmative votes
