

Business Issues Committee Meeting

January 26, 2011

SUMMARY OF MOTIONS

Motion #1:

The Business Issues Committee (BIC) hereby: (a) recommends that the Management Committee approve, and recommend to the NYISO Board for filing under Section 205 of the Federal Power Act, amendments to the Market Administration and Control Area Services Tariff ("Services Tariff") consistent with the amendments described in the presentation made to the BIC on this date, January 26, 2011; (b) approves the proposed changes to the Installed Capacity Manual as described in the presentation made to the BIC on this date; provided, however, with such changes becoming effective on the day that the Commission issues its order addressing the associated Section 205 filing if Commission acceptance is received more than two business days prior to the close of certification enrollment for any May 2011 Monthly Auction, but in no event, applicable for any ICAP auction(s) prior to the May 2011 Monthly Auction provided however, in the event the Commissions' order rejects the NYISO's section 205 filing, the Installed Capacity Manual changes related to the section 205 filing shall not become effective. If FERC's order is not issued more than two business days prior to the close of enrollment for the May 2011 Monthly Auction the NYISO will not implement any of the Services Tariff or Installed Capacity Manual changes related to the Section 205 filing until the Winter 2011/2012 Capability Period.

~~these Installed Capacity Manual changes shall only become effective if the Federal Energy Regulatory Commission ("Commission") accepts the Services Tariff amendments identified in part (a) of this Motion without modification and without conditions, and shall be effective (i) on the day after of the Commission issues its order, if Commission acceptance is received more than two business days prior to the close of certification for the May 2011 Monthly Auction, but not for any ICAP auction(s) prior to the May 2011 Monthly Auction, or (ii) for all ICAP market auctions associated with the Winter Capability Period, if Commission acceptance is received at anytime later than the foregoing period;~~ and (c) will include in the meeting minutes that the NYISO staff has indicated that in Calendar Year 2013, the NYISO will report to the ICAP Working Group on its evaluation of the revised SCR baseline performance methodology that is part of this motion.

Motion #1a:

The Business Issues Committee (BIC) hereby: (a) recommends that the Management Committee approve, and recommend to the NYISO Board for filing under Section 205 of the Federal Power Act, amendments to the Market Administration and Control Area Services Tariff ("Services Tariff") consistent with the amendments described in the presentation made to the BIC on this date, January 26, 2011; (b) approves the proposed changes to the Installed Capacity Manual as described in the presentation made to the BIC on this date; provided, however, with such changes becoming effective on the day that the Commission issues its order addressing the associated Section 205 filing if Commission acceptance is received more than two business days prior to the close of certification for any Monthly Auction, but in no event, applicable for any ICAP auction(s) prior to the May 2011 Monthly Auction

~~these Installed Capacity Manual changes shall only become effective if the Federal Energy Regulatory Commission ("Commission") accepts the Services Tariff amendments identified in part (a) of this Motion without modification and without conditions, and shall be effective (i) on the day after of the Commission issues its order, if Commission acceptance is received more than two business days prior to the close of certification for the May 2011 Monthly Auction, but not for any ICAP auction(s) prior to the May 2011 Monthly Auction, or (ii) for all ICAP market auctions associated with the Winter Capability Period, if Commission acceptance is received at anytime later than the foregoing period;~~ and (c) will include in the meeting minutes that the NYISO staff has indicated that in Calendar Year 2013, the NYISO will report to the ICAP Working Group on its evaluation of the revised SCR baseline performance methodology that is part of this motion.
