

Revenue Meter Requirements Manual

A presentation to the BIC

William deVries
NYISO – July 2005

RMR Manual: Genesis

- Result of a two-year collaborative effort among members of the Meter Task Force (MTF)
- Originally revised Control Center Requirements Manual (CCRM); eventually decided to create separate Revenue Metering Requirements (RMR) Manual
- Draft RMR Manual sent to BAWG in March 2005
- 6/24/05 draft includes BAWG comments
- BAWG reached consensus to send to BIC for approval

RMR Manual: Overview

1. Background & Terminology
2. Meter Equipment Standards
3. Installation, Maintenance and Calibration
4. Revenue Data Requirements
5. Data Analysis and Dispute Resolution

References [Guide for Uniform Practices in Revenue Quality Metering](#) approved by the New York State Electric Meter Engineers' Committee, August 20, 2003

RMR Manual: Going Forward

- NYISO will continue Visits of Metering Authorities during 3rd Qtr 2005
 - 4 of 8 Completed in 2nd Qtr 2005
 - Learning about MA processes, issues and capabilities
- Pilot Program in 2006
 - Select facilities 1st Qtr 2006
 - Documentation review and facility visits starting 2nd Qtr 2006
 - Gain understanding how compliance may be achieved and verified
- Continue to work with BAWG
 - Current draft is a good starting point
 - Process and data reviews will reveal opportunities for improvement
