New York Independent System Operator, Inc.  
Docket Nos. ER97-1523-000 *et al.*  
Filing of Service Agreements

Dear Mr. Boergers:

Pursuant to Section 205 of the Federal Power Act and 18 C.F.R. § 35.13(a)(2)(iii), the New York Independent System Operator, Inc. ("NYISO"), by counsel, encloses for filing executed Service Agreements for (i) Firm Point-to-Point Transmission Service, and (ii) Non-Firm Point-to-Point Transmission Service pursuant to the ISO Open Access Transmission Tariff ("ISO OATT"), together with Service Agreements under the New York Independent System Operator Market Administration and Control Area Services Tariff ("ISO Services Tariff").

Correspondence and communications with respect to this filing should be sent to:

List of Documents Submitted

The NYISO is filing the following:

1. This filing letter;
2. 62 Service Agreements for Firm Point-to-Point Transmission Service, as listed on Attachment I hereto;
3. 57 Service Agreements for Non-Firm Point-to-Point Transmission Service, as listed on Attachment II hereto;
4. 68 Service Agreements for the ISO Services Tariff, as listed on Attachment III hereto; and
5. Form of *Federal Register* Notice.

A copy of each Service Agreement is supplied following the list of entities shown on Attachments I, II, and III.

The Commission has directed the NYISO to file service agreements for the Member Systems of the New York Power Pool ("Member Systems") within 30 days from the date the NYISO commences operations. Service Agreements for the Member Systems are included herein.

Effective Date, Request for Waiver and  
Request for One-Day Extension of Time

Except as otherwise noted, the effective date for each Service Agreement is November 18, 1999, the date on Attachments I, II and III which the NYISO commenced operations under the ISO OATT and under the ISO Services Tariff. Pursuant to Section 35.11 of the Commission's rules and regulations (18 C.F.R. § 35.11), NYISO requests a waiver of the Commission's notice requirements (18 C.F.R. § 35.3). Under *Prior Notice Filing Requirements Under Part II of the Federal Power Act*, 64 FERC ¶ 61,139 at 61,983-84 (1993), waiver would have been appropriate if the service agreements had been filed yesterday. The delay in filing was occasioned by a number of factors. The effective date was not known with certainty until the NYISO actually commenced operations and successfully completed its initial operating period as of December 1, 1999. Compiling and copying a complete set of Service Agreements took longer than anticipated. In addition, a single filing of a large group of Service Agreements accepted to date promotes administrative efficiency both for the Commission and the NYISO and could not be done until the NYISO had an opportunity to process the Service Agreements. In the circumstances, the waiver of the Commission's notice is required and the filing of Service Agreements for the Member Systems should be accepted one day out of time.

The Honorable David P. Boergers, Secretary
