TO: Class Year 2019 Long Island Additional SDU Study Projects

Queue #	Project/Facility	Developer/Owner
535	Riverhead Expansion	sPower Development Company, LLC
612	South Fork Wind Farm	Deepwater Wind South Fork, LLC
695	South Fork Wind Farm II	Deepwater Wind, LLC
738	Empire Wind II	Equinor Wind US LLC
746	Peconic River Energy Storage	Energy Storage Resources, LLC

**Notice of Initial Decision Period Results to Class Year 2019 Long Island Additional SDU Study Projects – Initiation of Second Round**

Dear Developers:

This is to inform you that a Non-Acceptance Event has occurred in the Initial Decision Period for the Class Year 2019 Long Island Additional SDU Study (“LI SDU Study”), and therefore, a Subsequent Decision Period will be required. Developer decisions from the Initial Decision Round are summarized in the Table 1.

The NYISO will issue a revised LI SDU Study report, including Revised Project Cost Allocations for SUFs, SDUs and Deliverable MWs, as applicable, by April 26, 2021, in accordance with Attachment S of the NYISO Open Access Transmission Tariff.

Once NYISO issues the revised LI SDU Study report, any remaining Developers in the LI SDU Study whose Project Cost Allocations increase or whose Deliverable MW decrease, as a result of such revised report, will be part of a Subsequent Decision Period.

If there is no increase in Project Cost Allocations or decrease in Deliverable MW in the revised LI SDU Study report, no Developer will be provided with the option to accept or reject a Revised Project Cost Allocation in a Subsequent Decision Round and NYISO will issue a notice for Developers to post Security, as applicable. Developers will then have five (5) Business Days to (1) pay cash or post Security to the applicable Transmission Owner(s) for SUFs and (2) to pay cash or post Security for Headroom to the applicable prior Class Year Developer(s).

If, however, there is an increase to any Project Cost Allocations or decrease in any Deliverable MW for any project remaining in the LI SDU Study, and Project Developers in the Subsequent Decision Round reject a Revised Cost Allocation for SUFs, SDUs, or Deliverable MW, the NYISO will prepare and issue another revised LI SDU Study report with Revised Project Cost Allocations and Deliverable MWs, as applicable.

Please refer to Sections 25.8.2 through 25.8.4 of Attachment S for additional details regarding this decision and settlement process.

If you have any questions, please call me at (518) 356-6025, or send me an e-mail at the above address.

Sincerely,

*Thinh Nguyen*

Sr. Manager, Interconnection Projects
