308	Astoria Energy II	Astoria Energy II, LLC	Charles McCall
330	Upton Solar Farms	Long Island Solar Farm, LLC	Todd Lacoste

Re: Notice of Class 2009 and 2010 Security Posting Defaults – Initiation of Round 4

Dear Developer Representatives:

On October 17, 2011, NYISO issued a notice stating that all remaining Class 2009 and Class 2010 Developers had accepted their respective third round cost allocations and Deliverable MWs, as applicable, and advising the Class 2010 Developers to pay cash or post Security in the full amount of their respective Project Cost Allocations for System Upgrade Facilities (SUFs) and System Deliverability Upgrades (SDUs), as applicable, to the respective Transmission Owner(s).

This is to inform you that Security Posting Defaults have been committed in both Class 2009 and Class 2010. CPV Valley, LLC (a Class 2009 project) has committed a Security Posting Default for its SUF cost allocation, and Allegany Wind, LLC (a Class 2010 project) has committed a Security Posting Default for its SDU cost allocation. All other required Security postings were completed.

Consequently, the CPV Valley project will be removed from Class 2009 entirely. The Allegany Wind project will be removed from the Class 2010 Deliverability Study, but will remain in Class 2010 for Energy Resource Interconnection Service only. It will be necessary for NYISO to prepare and issue a Fourth Round of Project Cost Allocations for SUFs and SDUs and Deliverable MWs, as applicable, for the remaining Class 2009 projects, and separately the remaining Class 2010 projects. I anticipate issuing the Fourth Round addendum report and cost allocations within the next few days.

If you have any questions, please call or send me an e-mail at the number/address below.

Sincerely,

*Steven L. Corey*
