James H. Savitt, being duly sworn, deposes and says:

1. I am the Manager of Market Monitoring for the New York Independent System Operator, Inc. (NYISO). My business address is 3890 Carman Road, Schenectady, New York 12303. As Manager of Market Monitoring for the NYISO, I am responsible for the analysis of the market outcomes of the bidding and offering behavior of the participants in the NY market for bulk electric power.

2. I have read the attached filing submitted by the NYISO and am familiar with the facts and circumstances set forth therein, which are true and correct to the best of my knowledge and belief.

3. In connection with the NYISO's filing, I prepared the Attachments B and C using data that, to the best of my knowledge and belief, are true and correct. I also made certain calculations regarding the hourly and daily average prices for 10-Minute NSR between November 1999 and February 2000 as set forth in the filing letter on p. 6. I made these calculations using data that, to the best of my knowledge and belief, are true and correct. In addition, as stated on p. 8 of the filing letter, I examined clearing price data prior to January 29, 2000 and determined that the highest market clearing price for 10-Minute NSR was \$2.52 per MW per hour, with the exception of one hour when the price as set by a 30-Minute reserves unit. Finally, the ownership shares of 10-Minute NSR contained in the table on p. 5 accurately represent the figures that were supplied to the NYISO by the companies themselves.
