Washington, D.C. 20426

**Re: Informational Filing of Niagara Mohawk Power Corporation of the
Annual Update to the Formula Transmission Service Charge Under
the NYISO Open Access Transmission Tariff
Docket No. ER08-552-000**

Dear Secretary Bose:

Pursuant to the comprehensive Settlement Agreement and Offer of Settlement (“Settlement”) as approved by the Commission on July 22, 2009 in the above referenced docket, Niagara Mohawk Power Corporation d/b/a National Grid (“National Grid”) hereby submits for informational purposes its Annual Update of certain components of its TSC Formula rate, which sets National Grid’s Wholesale TSC under the New York Independent System Operator Open Access Transmission Tariff (“NYISO OATT”).¹ The enclosed filing letter and supporting materials identify the updated inputs to the TSC Formula Rate that will be implemented as part of the Annual Update that will become effective as of July 1, 2010.

I. Background

On February 11, 2008, as supplemented on May 30, 2008, National Grid submitted a filing under Section 205 of the Federal Power Act to replace its stated rates for its Transmission Service Charge (“National Grid TSC”) in Attachment H to the NYISO OATT with formula rates to become effective May 1, 2008. On July 29, 2008, the Commission accepted and suspended the proposed formula rates, to become effective

¹ Capitalized terms used but not defined in this filing are intended to have the meanings given to such terms in the Settlement Agreement and Offer of Settlement, including Attachment H of the NYISO OATT, filed with the Commission in this proceeding on April 6, 2009.

October 1, 2008, subject to refund, and established hearing and settlement judge procedures.²

On April 6, 2009, National Grid on behalf of the Settling Parties³ filed the Settlement intended to resolve all issues set for hearing in this proceeding. Among other things, the Settlement set forth the terms of a formula rate for the calculation of National Grid's transmission service charge under the NYISO OATT (the "Settlement TSC Formula Rate"), as well as procedures for the annual adjustment of certain inputs to the formula rate. Contemporaneously with the filing of the Settlement, National Grid also filed an Unopposed Motion for Implementation of Settlement Rates on an Interim Basis, seeking authorization to implement the Settlement TSC Formula Rate on an interim basis. National Grid expressed that granting this motion would not prejudice any party to this proceeding, would allow customers to benefit from the lower rates and would reduce the amount of refunds that National Grid will be obligated to pay upon Commission approval of the Settlement. For good cause shown, the Commission's Chief Administrative Law Judge granted National Grid's motion for interim rate relief on April 8, 2009 and allowed the Settlement TSC to be implemented on an interim basis effective as of January 1, 2009 ("Settlement Effective Date") pending approval by the Commission. In a letter order issued June 22, 2009, the Commission approved the Settlement.⁴ On July 24, 2009, National Grid issued required refunds to customers and on July 27, 2009, filed with the Commission its refund report, which was accepted by the Commission in an unpublished letter order issued December 30, 2009.

On November 30, 2009, National Grid filed to modify the manner of calculating the long-term debt cost of capital rate. The filing sought to adjust the determination of the amount of long-term debt used in the calculation which was based on the average beginning of the year and year end long-term debt balances. On January 13, 2010 the filing was accepted by the Commission effective February 1, 2010.⁵

In accordance with the Settlement, National Grid is directed to calculate each year new values for the Revenue Requirements ("RR"), control center costs ("CCC") and billing units ("BU") components of the Settlement TSC Formula Rate based on updated Data Inputs. National Grid is further directed to prepare an Annual Update that reflects the revised Data Inputs, the resulting RR, CCC, and BU components, and certain supporting information. According to Section 9.4 in Attachment H to the NYISO OATT,

² *Niagara Mohawk Power Corp.*, Order Accepting and Suspending Formula Rate Subject to Refund and Establishing Hearing and Settlement Judge Procedures, 124 FERC ¶ 61,106 (2008) ("July 29 Order"). Certain Settling Parties requested rehearing of aspects of the July 29 Order. On February 25, 2009, the Commission issued an Order that denied rehearing in part and granted rehearing in part. *See Niagara Mohawk Power Corp.*, 126 FERC ¶ 61,173 (2009).

³ The signatories consist of National Grid and the following entities: Allegheny Electric Cooperative, Inc., the City of Cleveland, Ohio, Multiple Intervenors, Municipal Electric Utilities Association, New York Association of Public Power, New York Municipal Power Agency, New York State Electric & Gas Corporation, and Rochester Gas & Electric Corporation ("Settling Parties").

⁴ *See Niagara Mohawk Power Corp.*, 127 FERC ¶ 61,289 (2009).

⁵ *See Niagara Mohawk Power Corp.*, unpublished Letter Order, Docket Nos. ER10-328-000, ER10-328-001 (January 13, 2010).

National Grid is directed on or before June 14th of each year to (1) post the Annual Update on the NYISO's Internet website, (2) submit the Annual Update to the Commission as an informational filing requiring no action by the Commission, and (3) serve the Annual Update electronically on all Interested Parties. This informational filing represents National Grid's second submission in satisfaction of this requirement.

II. Charges Resulting from the Annual Update

The Annual Update of the Settlement TSC calculated in accordance with Section 3.4 of the Settlement and Attachment H, Section 9.4(a) of the NYISO OATT results in a TSC rate of \$7.35 per Megawatt-hour ("MWh") for the Update Year beginning July 1, 2010. This is a decrease of \$0.23 per MWh as shown on Attachment 1, Schedule 4 of the Excel spreadsheet provided in Attachment A to this filing. The decrease can be attributed to an overall decrease in the RR component of \$22.1 million, which is partially being offset by a \$0.3 million increase in the CCC component and a 5% decrease in BU.

The \$22.1 million decrease in the RR component results from an overall decrease of \$18.9 million when comparing the actual data for 2009 (Schedule 4, line 2, column a) to the full year forecast for 2009 (Schedule 4, line 1, columns a and b). A further decrease of \$12.7 million (Schedule 4, line 2, column c less Schedule 4, line 1, column c) related to the change in the Annual True-Up portion of the RR component. This includes refunds for the billing period July 1, 2009 through January 31, 2010 as agreed in our November 30, 2009 filing. This is being partially offset by the forecasted 2010 revenue requirement adjustment of \$9.57 million (Schedule 4, line 2, column b) reflecting primarily the \$88.9 million of estimated capital adjustment to be placed in service in 2010 (Workpaper 8, line 16). The detailed calculation of the Annual True-Up amount is provided in Attachment 1, Schedule 3 and Workpaper 14 of the Excel spreadsheet provided in Attachment A to this filing.

In accordance with the terms of the Settlement, a copy of the Annual Update has been posted on the NYISO Internet website and may be found at the following URL address:

http://www.nyiso.com/public/markets_operations/market_data/miscellaneous/index.jsp?docs=national-grid-tsc-materials.

III. Notice of Annual Meeting

In accordance with Attachment H, Section 9.4(b)2, of the NYISO OATT, National Grid will hold an annual meeting to present and explain the Annual Update and respond to any questions. This meeting is open to all Interested Parties. This filing serves as notice that the meeting will be held on June 29, 2010 starting at 10:00 a.m. at National Grid's offices, Valley B Conference Room, 40 Sylvan Road, Waltham, Massachusetts. We request that any persons planning to attend the meeting notify Linda Wagner of their intent to attend by E-mailing Linda at the following address:

Linda.Wagner@us.ngrid.com.

IV. Attachments and Additional Supporting Information

The following supporting information has been provided and is enclosed herewith:

- This Transmittal Letter;
- Attachment A – Calculation of the Annual Update, in a workable Excel file, including schedules and workpapers, calculated in accordance with Attachment E to the Settlement;
- Attachment B – Monthly Transmission Owner Load (TOL) for the 12 months of December 2008 through November 2009 in PDF format, redacted to protect the confidentiality of each entity pursuant to Attachment H, Section 9.4(a)3.(ii) of the NYISO OATT. The summary TOL data in a workable Excel file are provided as Workpaper 13 to Attachment A;
- Attachment C – A statement of Material Accounting Changes pursuant to Attachment H, Section 9.4(a)3.(iii) of the NYISO OATT;
- Attachment D – A statement providing a description of any correction of any error affecting the calculation of charges under the Formula Rate during a prior year, pursuant to Attachment H, Section 9.4(a)3.(viii) of the NYISO OATT; and
- Attachment E – A list of the e-mail addresses of Interested Parties upon which this Annual Update was served.

Thank you for your attention to this matter. Please contact me if you have any questions concerning this informational filing.

Respectfully submitted,

/s/ Roxane E. Maywalt

Statement of Material Accounting Changes

Statement of Material Accounting Changes

A Company change in an income tax accounting method is causing an increase in NMPC's deferred tax liability. The Company changed its method of accounting for routine repair and maintenance costs for income tax purposes.

On March 10, 2008 the IRS issued proposed regulations on deduction, capitalization of expenditures related to tangible property under Internal Revenue Code Section 263(a). In mid-2009 the Company determined that it would seek this change. On September 21, 2009 the IRS issued Rev. Proc. 2009-39 that made the change an Automatic Accounting Method Change for all taxpayers. This meant that NMPC, as a taxpayer, received immediate approval to make the change upon the filing of IRS Form 3115. The Company filed Form 3115 for this accounting method change at the end of 2009.

The impact of this accounting change was to increase NMPC's balance of deferred tax liability, reducing Transmission rate base, by \$83.5 million effective December 2009.

Attachment D

A statement providing a description of any correction of any error affecting the calculation of charges under the Formula Rate during a prior year

**Statement describing any Correction of any Error Affecting the Calculation of
Charges under Formula Rate During a Prior Year**

There have been no corrections of any errors affecting the calculation of charges under the Formula rate during a prior year.

However, the Company would like to acknowledge that the determination of total Common Equity as shown in Attachment 1, Schedule 8 of \$4,448,155,498 in our July 2009 filing was incorrect. The formula should have reflected an amount of \$4,422,787,596.

This input error had no impact on rates due to the tariff requiring NMPC to fix the equity ratio at 50% should the actual equity to debt ratio be greater than 50%. For the 2008 historical test period used in the July 2009 filing, the actual equity ratio was greater than 50%.
