

NYISO President's Report

Management Committee Meeting November 12, 2003

Agenda #3

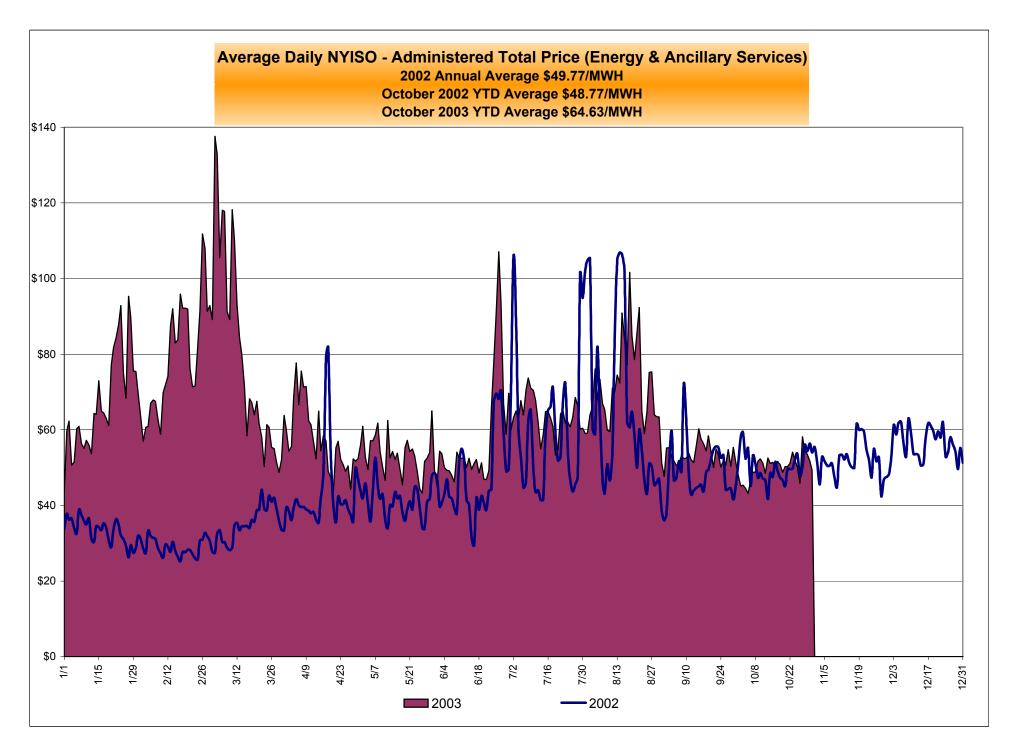

Report Items

- 1) Market Performance Highlights
- 2) Blackout Report Status
- 3) RPS Proceeding
- 4) Gas/Electric Market Issues Possible NAESB Involvement

Market Performance Highlights for October, 2003

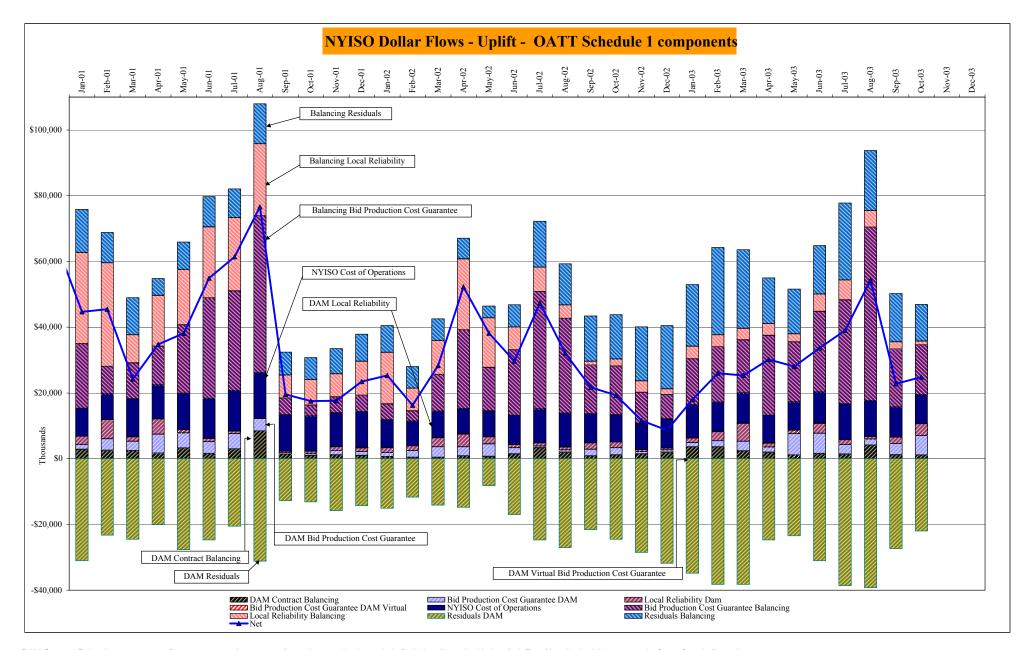

- Energy prices decreased in October, driven by milder weather and Low load compared to September
 - While October fuel prices increased over September's averages, the increase brought prices back in line with the previous months.
- Ancillary Services (relative to September)
 - The prices for Reserves are down
 - The prices for regulation are up (this is a shoulder month effect: there are fewer generators to call on)
- Price reservations increased in October due to TLRs. Of the 78 reservations, 48 were for TLRs.

NYISO Administered Total Price (Energy and Ancillary Services) from the LBMP Customer point of view

Market Monitoring Prepared: 11/11/2003 8:30

DAM Contract Balancing amounts are for payments made to generating units go make them whole for being dispatched below their Day-Ahead schedule, as a result of out-of-merit dispatches.

DAM Bid Production Cost Guarantees for Virtual Transactions are included in the chart and are shown from the inception of Virtual Transactions. These values are small and cannot be identified on the chart. The value for April 2003 is \$135,233.

DAM residuals are revenue charged or returned to customers due to the under or over collection of funds. On this chart, negative values represent funds returned to Transmission Customers (through Transmission Owners' Transmission Service Charges).
