

Business Issues Committee

March 7, 2007 Meeting

Motion - Agenda # 09

Motion:

The Business Issues Committee (BIC) hereby recommends that the Management Committee (MC) approve the proposed changes to the demand response program for zone J so that response could be called on an individual sub-load pocket basis when necessary for reliability, as described at the Business Issues Committee on March 7, 2007. The Special Case Resource Program participants would be responsible for complying with up to 20 hours of sub-zonal activations annually. Special Case Resource participation beyond the 20 hrs would be non-mandatory for sub-zonal calls and not be subject to penalties as set forth in the NYISO tariff. Emergency Demand Response Program participants would also be subject to sub-zonal calls in zone J, pursuant to NYISO tariff provisions for that program. Further, the BIC asks that the results after summer 2007 be discussed at the PRLWG and other appropriate working groups, with further consideration of network by network needs.
