Introduction

- ◆ OATT, Attachment Y, section 31.3.2.4.1.1 describes the process by which Developers may qualify to be eligible to propose regulated economic projects
 - *Phase 2 of the CARIS (“Congestion Assessment and Resource Integration Studies”)* process
- ◆ This tariff language was revised and expanded as part of the Order 1000 tariff revisions
- ◆ In preparation for 2016 CARIS 2, conforming changes are being proposed in the Economic Planning Manual

Manual Revisions

- ◆ New Section Inserted for “Developer Qualifications”
- ◆ Requires Developers to file “Developer Qualification Form”
- ◆ Identifies timeline for NYISO responsiveness
 - *Within 30 days of receiving all required information from the Developer*
- ◆ Confirms that Developers qualified under Reliability Planning or Public Policy Transmission Planning processes do not need to resubmit form
 - *Developer must provide any material updates when requesting eligibility for Economic Planning Process*

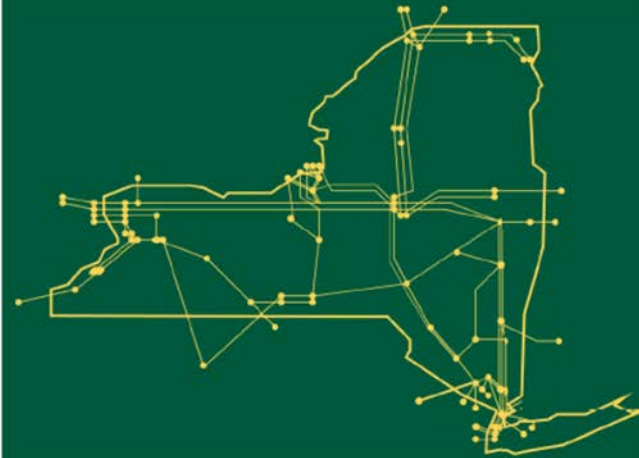

Manual Revisions

- ◆ Incorporating Provisions of Technical Bulletin #232
- ◆ Add Appendix H, incorporating by reference, the “NYISO Qualification Form” in Attachment A of the Reliability Planning Manual
- ◆ See redline and clean versions of the Manual included with meeting materials

Next Steps

- ◆ Utilize “NYISO Developer Qualification Form” for 2016 CARIS 2 (to meet ISO’s tariff compliance obligations)
- ◆ BIC Vote on Economic Planning Manual on February 10th

The New York Independent System Operator (NYISO) is a not-for-profit corporation responsible for operating the state's bulk electricity grid, administering New York's competitive wholesale electricity markets, conducting comprehensive long-term planning for the state's electric power system, and advancing the technological infrastructure of the electric system serving the Empire State.
