

**Business Issues Committee
September 9, 2003
Agenda Item #8**

Motion Regarding the Calculation of Installed Capacity Requirements

The Business Issues Committee hereby resolves that the procedures for developing installed capacity requirements should be revised to conform to the procedures described in the document entitled, "Transmission Owners' Proposal for Revising the Procedures for Using Load Forecasts to Calculate Installed Capacity Requirements," which was included in the materials distributed for this meeting, and recommends to the Management Committee that it approve these revisions in these procedures and authorize the ISO to develop whatever tariff and manual changes may be necessary to implement these revisions in these procedures.
