

BAWG Update To BIC

6/29/2005

Kevin Kipers

BAWG Update

- **Meter Manual**

- Was expected to be before BIC on 6/29
- Recent comments from MPs need to be addressed
The MTF / BAWG will address, for July BIC.
- Please review and forward comments to rstalter@nyiso.com for review at MTF / BAWG

- **Final Bill Close Outs**

- At BAWG the ISO announced a new schedule:
“Batch 2” (March – July 2000) remains on hold.
- 8/5 Invoice will include 9/2000 – 1/2001
- 9/8 Invoice will include 2/2001 – 6/2001.
- We would be caught up in July 2006

BAWG Update

- **May 2000 Price Corrections**
 - Revised billing posted based on new prices.
New prices have been posted.
No billing errors were reported.
Manual Adjustments are pending for 5/8 & 9.
NYISO planned to invoice 5/8 & 9 on July 8
 - MPs raised concerns with “partial month” invoice;
NYISO agreed to review, and responded with an announcement on 6/28 that a full May 2000 invoice would be processed.
- **Billing & Accounting Manual**
 - 1st call to review calculations will be scheduled soon.
More volunteers are needed from the suppliers.
 - Target for additional sections remains Fall 05

BAWG Update

- **Billing Test Bed**

- BAWG discussed requirements / benefits.
Discussed similarities with the Billing Simulator
Requesting Billing Simulator update at July BAWG.

- **Other Items:**

- **Discussed at BAWG:**

- MP's request to see data posted for the cost of Generator Out Of Merit status – by zone, or sub-zone will be sent to the DSS task force.

- Monitoring Uplifts – a call will be set up where Cust. Settlements will summarize their procedures to monitor uplifts, review settlement accuracy.

- Final status of 8/14/03 Extraordinary Costs – presented by NYISO.

BAWG Update

- **Other Items (continued)**
 - **From Previous meetings:**
 - Automation Projects for Settlements in 2005
 - BAWG members agreed to submit input to PPT representatives
 - Suggested improvements to invoices
 - Implementation of the new congestion balancing settlements TOs (effective 1/04) is not complete.
- **Meter Data Task Force**
 - Will discuss post-smd2 sub-zonal losses (and impact on sub-zonal loads) and report observations to BAWG.
- **DSS Task Force:**
 - Requesting input on future enhancements.
- **Next Meeting, July 21st.**
