PROFESSIONAL EXPERIENCE

Vice President – Regulatory and Legislative Affairs

Constellation Energy Commodities Group July 2001-Present

Responsibilities include representing Constellation Energy Commodities Group on various NYISO committees, including the Management Committee, Business Issues Committee and Operating Committee as well as various working groups of these Committees. I act as an internal advisor to marketing and trading groups on market and business rules and regulatory risk. Participate in CCG filings at various regulatory agencies.

Director Market Development

Automated Power Exchange, Inc. Sept. 2000-July 2001

Responsible for development of an online energy trading platform for the Northeast power markets, including New York, New England and PJM. Responsibilities included recruiting participants in these markets to trade on the Automated Power Exchange trading platform. Responsibilities also included identifying new opportunities for internet based trading applications (i.e. installed capacity trading, transmission congestion instruments trading, etc.) and identifying opportunities for providing services to the various Independent System Operators in the Northeast, including the Ontario Independent Market Operator, New England ISO, New York ISO and the PJM Interconnection.

Senior Power Marketer

PPL Energy Plus L.L.C. 1998 to Sept. 2000

Wholesale market development for PPL, Inc. and then PPL Energy Plus in the New York and Ontario Canada markets. Instrumental in developing longer term wholesale transactions with utilities, marketers and ESCO's. PPL representative on the New York Independent System Operator committees, Management, Business Issues and Operating Committees. Manage interconnection issues for PPL Global, asset development arm of PPL, through the NYISO process.

Electric Supply Manager

Engelhard Power Marketing, Inc. Iselin, NJ - 1996 to 1998

Responsible for the scheduling of the portfolio of daily and weekly positions in the Pennsylvania/Jersey/Maryland energy markets. Also responsible for the reservation and scheduling of transmission in all areas of the country using the open access tariffs of transmission owning entities, including use of the OASIS system developed by the electric utility industry as mandated by the Federal Energy Regulatory Commission. Negotiated 24 hour scheduling service for Engelhard wholesale power transactions. Develop new counterparts and contracts with customers. Put in place business infrastructure to supply retail customers in Pennsylvania retail pilot programs. Manage resource supply for retail electric sales. Perform electricity consumption analysis of Engelhard facilities and formulate business plans to reduce overall costs of electricity for the corporation.

Pool Dispatcher

Consolidated Edison Co. of NY - New York Power Pool - 1986 to 1996

Pool dispatcher assigned to the New York Power Pool. Responsibilities included: monitoring the transmission system, coordinate transmission line and equipment outages, coordinate and schedule energy contracts with New York Power Pool members.

Steam Dispatcher

Consolidated Edison Co. of NY - 1986

Responsible for the steam system supplying New York City steam customers' demands.

Instrument and Control Supervisor

Consolidated Edison Co. of NY - 1984 to 1986

Supervised a work force of sixteen Instrument and Control Technicians in a fossil power plant. Responsible for all testing, maintenance and upgrading of the controls associated with high and low pressure boilers, turbine generators and associated equipment.

Electrical Technician/Senior Electrical Technician

Consolidated Edison Co. of NY - 1973 to 1984

EDUCATION

A.A.S in Electrical Technology

College of Staten Island, Staten Island, N.Y.

College of Staten Island Staten Island/City University, of NY

B.S. Economics

Professional Studies

Concepts of Electrical Systems Operations and Control

Seminars in Inter-Regional System Operations - Northeast Power Coordinating Council

Glen J. McCartney: Answers to Vice Chair Solicitation Questions

1. Please describe all experience you have had in chairing groups or committees of diverse interests, with a list of such groups.

I was the NYISO Operating Committee Chairman from December 2004 through November 2005. I have chaired various commercial and corporate internal meetings. In addition, I have chaired committees of diverse interests outside the power industry. These include fund-raising committees, membership committees of special interest groups, car clubs, church organizations and the like.

2. Please describe the support of your organization for your assuming the position of Vice-Chairperson, and describe your ability to make the necessary time commitment.

Constellation Energy Commodities Group fully supports and encourages my involvement in the various committees that I represent them. Constellation Energy Commodities Group fully supports me in any obligations I would be required to undertake as Vice Chair of this committee.

3. Please describe any training or experience you have had in mediation, ADR or consensus building.

I have taken classes in mediation training and attended dispute resolution seminars as part of my functions as a supervisor of union personnel during my career.

4. Please describe briefly why you would like to have this job.

I have been intimately involved in the various NYISO committees and working groups since the NYISO markets went into operation in 1999. Having participated in numerous NYISO committee meetings over the years, I feel it is time to take responsibility and contribute to the leadership of the organization.

5. Please describe briefly your organizations actual and/or potential business interests in the Northeast and New York State, including the sector in which your organization participates for purposes of NYISO governance.

Constellation Energy Commodities Group participates in the NYISO in the Other Supplier Sector and is involved in markets in all regions of the US on a daily basis. Constellation Energy Commodities Group trades fuels, power, capacity, transmission congestion and provides risk management instruments to other market participants in these markets.
