NYISO Business Issues Committee Meeting

November 8, 2006

NYS Nurses Association, Latham, NY

MOTIONS FROM THE MEETING

Motion #1:

Motion to approve the Minutes of the October 11, 2006 BIC meeting.

Motion passed unanimously by show of hands.

Motion#2a:

The Business Issues Committee (BIC) hereby recommends that the Management Committee (MC) approve revisions to Attachment I of the Market Administration and Control Area Services Tariff and Attachments U and V of the Open Access Transmission Tariff, as discussed at the Scheduling & Pricing Working Group meeting on October 31, 2006, and presented to the BIC on November 8, 2006. The proposed tariff revisions would create a uniform methodology for calculating the allocation of bad debt losses incurred in any NYISO-administered market and for the annual rebalancing of customer contributions to the NYISO's working capital fund. These revisions will not be filed with FERC until a proposal, which is in development in the Credit Policy Task Force, to revise credit requirements for virtual transactions is acted upon by the Management Committee.

Motion failed with 5% affirmative votes.

Motion #2

The Business Issues Committee (BIC) hereby recommends that the Management Committee (MC) approve revisions to Attachment I of the Market Administration and Control Area Services Tariff and Attachments U and V of the Open Access Transmission Tariff, as discussed at the Scheduling & Pricing Working Group meeting on October 31, 2006, and presented to the BIC on November 8, 2006. The proposed tariff revisions would create a uniform methodology for calculating the allocation of bad debt losses incurred in any NYISO-administered market and for the annual rebalancing of customer contributions to the NYISO's working capital fund.

Motion passed unanimously by show of hands with abstentions.

Motion #3:

The Business Issues Committee (BIC) hereby recommends that the Management Committee (MC) approve revisions to Attachment K of the Market Administration and Control Area Services Tariff and Attachment W of the Open Access Transmission Tariff, as discussed at the Scheduling & Pricing Working Group meeting on October 31, 2006, and presented to the BIC on November 8, 2006. The

proposed tariff revisions would reduce the NYISO's risk of bad debt losses by allowing it to retain a portion of a Customer's collateral upon its exit from the NYISO-administered markets to secure any remaining true-up obligations that may later be payable by the Customer.

Motion passed unanimously by show of hands with abstentions.

Motion #4:

The Business Issues Committee (BIC) hereby approves Revisions to the NYISO's Market Services Tariff and OATT that are necessary to implement the Cedars/Dennison and Neptune transmission facilities as scheduled lines, in a manner consistent with the information/descriptions provided to the S&P Working Group on October 18, 2006 and presented to the BIC on November 8, 2006.

Motion passed unanimously by show of hands with abstentions.

Motion #5:

Whereas, the NYISO has discovered an inconsistency between (i) the description of the recovery of the costs of Operating Reserves from LSEs and Transmission Customers scheduling Exports in the NYISO Open Access Transmission Tariff ("OATT"), Rate Schedule 5, and (ii) the manner in which it actually recovers the costs of Operating Reserves from LSEs and Transmission Customers scheduling Exports, and

Whereas, the NYISO explained this inconsistency to the Market Participants at scheduled meetings of the Market Structures Working Group on October 11, 2006 and November 6, 2006, and at a scheduled meeting of the Business Issues Committee on October 18, 2006; and

Whereas, the Business Issues Committee has reviewed the description of the issue provided by the NYISO for this November 8, 2006 meeting of the Business Issues Committee, and concurs with the NYISO's recommendation that the manner in which it has been recovering the costs of Operating Reserves from LSEs and Transmission Customers scheduling Exports is an appropriate method for recovering the costs of Operating Reserves in the NYISO market and should be continued.

Now, therefore, the Business Issues Committee recommends that the Management Committee approve an amendment to Rate Schedule 5 of the OATT for the purpose of a filing pursuant to Section 205 of the Federal Power Act, such amendment to conform the description of the recovery of the costs of Operating Reserves from LSEs and Transmission Customers scheduling Exports in the NYISO OATT, Rate Schedule 5, to the manner in which such Operating Reserves costs are currently being recovered by the NYISO, as is more fully described in the presentation

materials provided to the Business Issues Committee at this November 8, 2006 meeting.

Motion passed by majority show of hands with abstentions.

* The Business Issues Committee elected Glen McCartney, of Constellation Energy Commodities Group, to fill the Vice Chair position for December 2006 through November 2007.Bill Palazzo, the current Vice Chair will assume the position of Business Issues Committee Chairman beginning December 2006.

(Mr. McCartney was elected MC Vice Chairperson by ballot with 100 % affirmative votes)
