Motion #4:

Motion #5:

The Business Issues Committee ("BIC") hereby recommends that the Management Committee approve changes to the NYISO's Tariff's with regard to Real-Time Modeling of Combined Cycle Units as more fully described in the presentation made to the BIC on June 10, 2009. Additionally, the BIC requests that the NYISO determine, and report to the MC prior to its consideration of this motion, whether the intent of the hundred and thirty five minute bid lock could instead be addressed by allowing bids under the normal lead time with the provision that the qualifying unit could not raise its bid in the two hour period. If the NYISO determines that this alternative approach is feasible it shall modify the presentation and proposed tariff revisions accordingly for consideration by the MC.

Motion passed unanimously.
