

Test of RETX Communications System for EDRP and SCR Resources

**Price Responsive Load Working Group
August 17, 2007**

Draft – for discussion purposes only

RETX Communications Test

- ✓ Test message sent out through RETX Notification System on July 17
- ✓ Confirmed with all RIPs/CSPs that emails and phone calls were received
- ✓ Some minor issues/clarifications were identified based on NYISO observation and MP feedback
- ✓ Changes made on July 19

RETX Communications Test

✓ Language in Messages Confusing

Example:

SCR Resources in the NYISO Targeted Demand Response Program that can respond immediately are needed from 08:00 and 23:00 for the following New York City Locations; J3.

Text of Message Changed to:

SCR Resources in the NYISO Targeted Demand Response Program that can respond immediately are needed from 19:30 to 23:59 for the following New York City Locations; J8.

RETX Communications Test

✓ Phone Communications

- *When MPs respond using phone option – this did not tie back to the NYISO system*
- *Time stamp of Phone Calls not in EST*

✓ Resolution

- *Response through phone option has been removed*
- *Time stamp has been corrected*
