
NYISO Management Committee Meeting Minutes

May 28, 2010

8:30 a.m. to 9:00 a.m.

1. Introductions, Meeting Objectives, and Chairman's Report

Mr. Glen McCartney (Constellation), the Chair of the Management Committee (MC), called the meeting to order at 8:30 a.m. and welcomed the members of the MC. The members of the MC then identified themselves and attendance was recorded. A quorum was reached.

2. Proposed Mitigation of ROS Generators Committed for Reliability

Ms. Nicole Bouchez (NYISO) reviewed the presentation (see posted material). Mr. Howard Fromer (PSEG) stated he felt strong objection to the manner in which the NYISO decided to move this matter through a conference call on the Friday of a long weekend. He also stated he continues to have strong objections to moving forward in a bifurcated fashion. He recognized the FERC decision covered many issues on the need for some mechanism to deal with the long term reliability commitments that don't have the ability to recover running costs, however the FERC report gave 90 days, we did not need to push this through.

Ms. Doreen Saia (GT) asked for confirmation that if your reference price information said that you had one stop per day, you would not trigger the mitigation by putting that in your bid. Ms. Bouchez confirmed. Ms. Saia also asked for a time frame for the fixed cost recovery issue discussions at MIWG. Mr. Shaun Johnson (NYISO) stated the NYISO plans to restart discussions and is looking at the last week of June of first week of July. He added the NYISO is soliciting feedback from sectors to try to develop proposals that will be better received.

Mr. Mark Younger (Slater Consulting) stated after reading the FERC Order he still has a number of concerns raised at the BIC and intends to raise those concerns through the proper process.

Mr. Bart Franey (National Grid) stated the proposal to broaden ROS mitigation rules is appropriate for a process that is inherently common in system operations to maintain reliability. The possibility that non-competitive bids could be routinely accepted whenever units were called out of merit in order to resolve a reliability issue needs to be corrected and National Grid appreciates the NYISO holding a special MC and bring this to the Board as soon as possible.

Motion #1:

The Management Committee hereby recommends that, consistent with the NYISO's presentation to the Management Committee on this day, the NYISO's Board of Directors approve the submission of revisions to the NYISO's Market Mitigation Measures and corresponding changes to the Market Monitoring Plan under Section 205 of the Federal Power Act to permit the implementation of mitigation rules that will apply to Generators located outside the New York City Constrained Area at times when they are committed for reliability and when other specified prerequisite conditions are satisfied.

Motion passed with 79.27% affirmative votes.

Management Committee Meeting

May 28, 2010

Final Motion

Motion #1:

The Management Committee hereby recommends that, consistent with the NYISO's presentation to the Management Committee on this day, the NYISO's Board of Directors approve the submission of revisions to the NYISO's Market Mitigation Measures and corresponding changes to the Market Monitoring Plan under Section 205 of the Federal Power Act to permit the implementation of mitigation rules that will apply to Generators located outside the New York City Constrained Area at times when they are committed for reliability and when other specified prerequisite conditions are satisfied.

Motion passed with 79.27% affirmative votes.
