

CARIS 1&2

Date	Requester	Item
7/7/2011	Saia Younger Younger Paynter Syed Aydemir Younger Deidre Deidre Doreen Chris Wentlent Boyle Boyle	Requests written description of how we created CARIS 2 from CARIS 1 Wants hurdle rates fixed or explanations for change Wants hurdle rates reported Grand total for total system production costs Request excel file of limit at each of hourly Central-East flows Wants unhedged numbers How many allowances can California purchase from NY Can we purchase allowances from California What is status of RGGI Supply cutback for 2013 Scenario on emissions costs Have we taken into account NOxRact, MACT, CATR Can ESPWG emails be posted on website? would like to be given 2011 CARIS 1 input data contemporaneously
6/22/2011	Higgins Younger Aydemir Younger/Boyle Younger Aydemir/Deidre Younger Younger Aydemir/Deidre Younger	Talk off-line on 2010 TTC How many hours is Central-East binding MAPS vs. Actual Would like a loading duration curve Why is TTC down from 2006-2007 levels?/what will it be in future? suggest a scenario with \$1 hurdle rate for imports are historic congested numbers duplicative for multiple elements How many negatively congested elements to consider How to handle positive and negative congestion on 1 element Explain differences in Greenwood congestion numbers reported What would be the incremental transfer limit benefit for new transmission
6/8/2011	Saia Franey Franey Franey Younger	CARIS2 Summary data What is impact of Athen SPS What was average binding limit for 2011 Consider multiple solution costs and benefits of combined solutions consider CY T-costs when presenting generic costs
5/19/2011	Higgins	List changes made between 2009 and 2010 CARIS Models
5/9/11	Sayed Higgins Deidre Younger	How NYISO Web Data was calculated/produced Present table of comparisons for 2010 model/actual values peak and off peak by month for implied heat rate How did we price imports/what proxy buses? Explain how calculated Will we consider series capacitors for generic solutions?
4/21/2011	Sayed & Janos Aydemir	Provide footnotes or other description of basis for interface limits What is the export from HQ to NE over Phase II? Can you provide normal and emergency transfer limits? Explain diff between MAPS/MARS besides Frasier-Gilboa What is sensitivity of congestion to way we model wheel?
4/21/2011	Aydemir Saia	Provide details on planned gen outages for each pool Provide final list of changes from 2009-2011 CARIS 1
4/11/2011	Boyle/Higgins Paynter	What changes did we make based upon a backcast? List of proposed metrics for ESPWG How are we pricing congestion for NYCAwide production metric
OTHER ACTION ITEMS		
5/19/2011	Boyle	Procedure to limit CARIS2 requests to a filing "window"
5/19/2011	Deidre	Schedule with items for future ESPWG meetings
5/19/2011	Fromer	Can we create time limit for developer to proceed to a vote?
5/9/2011	Younger	Why no SCR for winter in GB?
4/21/2011	Altobell	Will we model excess capacity over minimum for LOLE?
4/11/2011	Altobell	Nyiso to discuss and bring forward a position on tariff change re: Cap Modeling
4/11/2011	Various Boyle	Schedule for LSPower CARIS 2 Study results Revisit posting reqts that ID requestor for Add'l CARIS studies
