2015 Budget vs. Actual Variance Explanations

	<u>Year-To-Date Variance</u>
<u>Capital</u>	A year-to-date underrun of \$0.9M is primarily due to postponement of construction of the Receiving and Delivery Facility to 2016.
Salaries & Benefits	A year-to-date underrun of \$0.5M is primarily a result of the actual vacancy rate being higher than budgeted.
Professional Fees	A year-to-date underrun of \$1.3M is primarily due to timing of Coordinated Transaction Scheduling with ISO-NE of \$0.7M, savings on the Ranger Upgrade of \$0.9M, and timing of external legal fees of \$0.3M, partially offset by a \$0.8M overrun related to the PSC-AC Transmission Study work.
Building Services	A year-to-date underrun of \$0.4M is primarily due to savings on the cost of utilities.
Computer Services	A year-to-date underrun of \$0.4M is due to timing of hardware maintenance renewals and timing of minor computer equipment purchases.
Insurance	N/A
<u>Telecommunications</u>	N/A
Other Expenses	N/A
Debt Service	A year-to-date overrun of \$2.0M is primarily due to additional principal payments on outstanding debt offset with proceeds from a budget underrun and volume overcollection from the prior year.
Misc. Revenues	N/A
Interest on Debt	N/A
FERC Fees	The actual FERC Fee invoice was less than the budgeted amount, resulting in an underrun of \$1.4M.
