

# 2013 Budget vs. Actual Status

(\$ in millions, unless otherwise noted)

#### **Cheryl Hussey**

Vice President And Chief Financial Officer
New York Independent System Operator

**Budget & Priorities Working Group** 

February 13, 2014 Rensselaer, NY

#### **Executive Summary**

- 2013 budget vs. actual results are contingent upon the completion of NYISO's financial statement audit (scheduled for mid-March).
- NYISO experienced an over-collection of \$2.5M on 2013 Rate Schedule 1 revenues.
- Draft NYISO budget vs. actual results reflect a spending underrun of \$4.8M (3.0% variance against the 2013 budget).

<sup>\*\*</sup> Debt proceeds to be received in month following the month services were provided

#### 2013 Budget vs. Actual Variance Explanations

|  | <u>Year-End Variance</u>   |
|--|--|
| Non – Infrastructure Master Plan Capital | A year-end overrun of \$1.0M is primarily due to the start of the roof replacement on the original KCC building structure and renovations to the cafeteria and original lobby.   |
| Infrastructure Master Plan Capital       | A year-end overrun of \$1.7M is due to timing of construction activities carried over from 2012. Although 2013 costs were higher, additional borrowing of mortgage proceeds offset any potential budget impact during 2013.  |
| Salaries & Benefits                      | A year-end overrun of \$0.6M is primarily due to budget assumptions used to estimate compensation.   |
| Professional Fees                        | A year-end underrun of \$5.1M is primarily due to savings on multiple Ranger enhancement initiatives of \$1.0M, savings in external legal fees due to increased reliance on the work of in-house counsel of \$1.2M, consulting services for the DOE SGIG project of \$1.0M, and budget reallocations to Computer Services of \$1.1M. |
| Building Services                        | A year-end underrun of \$0.4M is primarily due to savings in utility costs and various building maintenance contracts.   |
| Computer Services                        | A year-end overrun of \$0.7M is primarily due to reallocations from other budget line items of \$1.1M, partially offset by a refund received for negotiated savings on a software maintenance contract of \$0.6M.  |
| Insurance                                | N/A  |
| <u>Telecommunications</u>                | A year-end underrun of \$1.2M is primarily due to savings of \$0.5M related to the DOE SGIG telecommunications network and savings on general usage charges of \$0.7M.   |
| Other Expenses                           | A year-end overrun of \$0.4M is primarily due to an increase in BOD fees effective April 2013.   |
| Debt Service                             | N/A  |
| Misc. Revenues                           | N/A  |
| Interest on Debt                         | N/A  |
| FERC Fees                                | The actual FERC Fee invoice was less than the budgeted amount, resulting in an underrun of \$0.5M.   |
