

NYISO Business Issues Committee Meeting

November 5, 2003

Marriott Hotel, Albany NY

MOTIONS FROM THE MEETING

Motion #1:

Motion to approve the minutes from the October 8, 2003 Business Issues Committee Meetings.

(Motion passed unanimously by a show of hands)

Motion #2:

The BIC directs the NYISO to change its calculation of financial security requirements in ISO administered Installed Capacity and TCC auctions to correctly reflect the maximum exposure when a market participant submits multiple bids at different prices for the same product.

(Motion passed unanimously by a show of hands)

Motion #3:

The Business Issues Committee, having reviewed the proposed changes to allow adjustments to the number of Existing Transmission Capacity for Native Load (ETCNL) and Residual Capacity Revenue Rights (RCRR) sold by the NYISO in order to reduce the level of Day-Ahead Market TCC Shortfalls, as discussed at the Market Structures Working Group (MSWG) meeting on October 31, 2003 and as presented at the Business Issues Committee (BIC) meeting on November 5, 2003, hereby recommends that the Management Committee approve, for a Section 205 filing, tariff changes consistent with the proposal and for the accompanying filing letter to state the consensus reached at the October 31, 2003 MSWG meeting:

- The initial maximum level will remain fixed at 5% for 1 year
- The 5% level will be reviewed with the intent of implementing a TO by TO percentage option for the Spring 2005 auction
- Prior to the Fall 2004 auction, the appropriateness of releasing some of the retained TCCs into reconfiguration auctions will be reviewed
- A long-term targeted solution that more accurately accounts for scheduled outages will be developed
- For market transparency purposes, the level of TCCs retained by each TO will be posted prior to each auction
- The NYISO will report to FERC on the performance of this TCC Shortfall method after the summer 2004 capability period.

(Motion passed with 67.75 % affirmative votes)
