# DADRP – Proposed Changes

- DADRP Becomes a Permanent NYISO Feature
  - Remove sunset date from the DADRP “incentive”
  - Conduct annual reviews and recommend changes as appropriate
- Retain current Payment/Credit/Cost Recovery structure
  - DRPs paid as generators based on accepted DA schedules
  - Host LSE receives credit equal to DRP payment
  - Uplift costs allocated to all benefiting LSEs using existing congestion formula
- Amend the DADRP so as to settle deviations from Day-Ahead schedules at the RT LBMP, consistent with other NYISO markets
  - DRPs settle deviations from DA schedules at the RT LBMP
- Remove the requirement that PSC-certified MSP/MDSPs submit meter data.
  - DRPs must identify TO/MDSP supplying data
  - NYISO retains ability to audit meter data.
- Adopt Flexible Floor Price
  - Remove Floor Price from Tariff
  - Charge MMP with Setting/Administering Floor
  - Increase Floor to \$75 for Winter 2004-2005
  - Explore implementation of different time-of-use (on-/off-peak) floor prices
- Continue to Limit Participation to Curtailable Loads
- All Changes to be effective October 31, 2004
