NYISO Management Committee - Special Meeting

May 14, 2003

Conference Call Meeting

MOTIONS FROM THE MEETING

Motion #1:

The Management Committee approves the NYISO Proposal, as presented May 14, 2003, for addressing several issues related to the settlement process for TCCs, consisting of:

- 1. A method for determining charges for decreases in congestion rent and auction revenue collections attributable to transmission facility outages that are modeled in the DAM, TCC reconfiguration auctions, or TCC capability period auctions;
- 2. A method for determining payments for increases in congestion rent and auction revenue collections attributable to transmission facilities placed back, or modeled back in-service in the DAM or the TCC reconfiguration auctions;
- 3. A flow-based method for allocating residual auction revenues to the TOs;
- **4.** A modified method for allocating the residual congestion rents from the DAM settlements to the TOs; and
- **5.** BIC recommends that the Management Committee approve this proposal and request that the Board approve it for a Section 205 filing in lieu of the proposal to reallocate congestion rent shortfalls and surpluses and TCC auction revenues approved by the Management Committee at its February 20th, 2003 meeting.
- **6.** Implementation of this allocation methodology to the Day Ahead and TCC Reconfiguration auctions shall take place for the same month. The NYISO shall implement these changes as soon as possible but, in any event, shall be applied retroactively to the Winter 2003-2004 Capability Period TCC Auction, Reconfiguration Auctions and DAM.
- 7. The Management Committee requests that the NYISO staff work in conjunction with the Market Structure Working Group and/or Congestion Reduction Task Force to develop tariff language for approval by the chairs and vice-chairs of the Business Issues and Management Committees.

(Motion passed with 88.45 % affirmative votes)
