NYISO Management Committee Meeting

June 28, 2006 Teleconference

10:11 a.m. – 12:50 p.m.

Draft MINUTES OF THE MEETING

1. Introduction, Meeting Objectives & Chairman's Report

Mr. Jerry Ancona (National Grid), Chairman, called the meeting to order at 10:11 a.m.

2. Approval of the Minutes

Mr. Ray Stalter (NYISO) discussed minutes from May 31. Mr. Paul Gioia (representing Transmission Owners) requested a clarification in the minutes regarding the load forecast numbers in the President's Report. Mr. Stalter noted the discrepancy and said he would have a correction made to the minutes and sent to Mr. Gioia for his review. The Committee considered approval of the minutes with the inclusion of the comments from Mr. Gioia to be added.

Motion #1:

Motion to approve the May 31, 2006 meeting Minutes. *Motion passed unanimously by show of hands.*

3. **President's Report**

Mr. Mark Lynch, CEO and President NYISO introduced Mr. Rana Mukerji, Vice President of Market Structures.

Reporting on Price Corrections, Mr. Lynch noted that reservations have increased due to transmission line outages in Long Island. This condition will continue to take place through July. Mark Younger (Indeck Energy Services) asked if the prices that are being set are consistent with the dispatch instructions. Rick Gonzales (NYISO) explained that the model is producing incorrect dispatch instructions but the operators are manually over-riding those instructions and dispatching others that are consistent with the price. This affects only Zone K (Long Island area)

Mr. Lynch continued with the Report, noting that with exception of the Long Island phenomena, good progress continues for work with corrections and releasing reserves in a minimal time. He also noted that a draft of the Comprehensive Reliability Plan will be distributed for comment within the next couple of weeks, keeping in mind the ESPWG review for July 10 time frame. Ms. Doreen Saia (Mirant) asked for confirmation that the plan would be reviewed at special meetings and submitted for final approval at the August Board meeting. Mr. Lynch confirmed that it would be presented for review at special MC and OC meetings and the final form would go before the Board in August.

Mr. Lynch also gave a reminder to the MC of the Joint MC - Board meeting on July 17. The agenda is currently being completed, which will include a series of questions about the strategic direction of the NYISO, to which each sector panel will be asked to provide input to the Board.

4. Proposed Tariff Revisions Addressing the NYISO Credit Pre-Payment Program

Ms. Kyla Douglas (NYISO) presented the proposed tariff modifications, which touched upon three major items:

1.) A change in the prepayment date from Friday to Monday

2.) A reduction of the default cure period non-compliance from three days to one

3.) A modification of the methodology used to calculate collateral associated with the prepayment program.

Ms. Douglas reviewed the existing pre-payment program. Currently, MPs' trueups are used to predict future true-ups, with payments due every Friday for the next week's market activity.

Mr. Stuart Nachmias (Con Edison) asked Ms. Douglas to explain the NYISO's efforts to address load under-forecast by LSEs, and its relationship to the proposed pre-payment credit changes. Ms. Douglas responded that in the current process for prepayment customers, the risk related to under forecast is mitigated by the use of historic true-ups as the primary base for credit support, which causes the credit support to increase if under forecast risk, the NYISO has implemented new procedures to limit the ability for LSEs to habitually under forecast, which greatly reduces this credit risk. Therefore, the new credit proposal, which replaces true-up credit support with 3-days collateral to cover the cure period if prepayment is not timely made, is an improved one that provides appropriate protection for all market participants and considers the separate changes to address load forecast under forecast issues.

Motion #2:

The Management Committee (MC) hereby approves tariff modifications, as presented to the MC on June 28, 2006, addressing the pre-payment program contained in the NYISO's credit policy, and recommends to the NYISO Board of Directors that the NYISO file the proposed tariff modifications pursuant to Section 205 of the Federal Power Act.

Motion passed unanimously by show of hands with abstentions.

5. Proposed Tariff Revisions Addressing Participation of Non-Generator Resources in the Voltage Support Services Program Mr. Ancona excused himself as Chair in order to participate in the proposal discussions. The Vice Chair, Matt Picardi (Coral) acted as Chair for this discussion.

Dr. Kevin Jones (LIPA) gave a brief description of the motion, stating the mission was to afford comparable treatment for Cross Sound Cable (CSC) and other non-generator sources that provide voltage support services. Mr. Liam Baker (U.S. Power Generating) asked if there had been any instances when the CSC was asked to be energized by the ISO for voltage support. Mike Calimano (NYISO) replied that there had not.

Mr. Ancona moved an unfriendly amendment to the motion to revise the definition of a non-generator provider. He said that he did not want someone to build a facility and expect to get paid without some involvement from the ISO or TOs. Tim Bush (representing MEUA) had similar concerns, and proposed an amendment to the motion with language that included the term "qualified nongenerator." Dr. Jones believed that a portion of Mr. Ancona's amendment could be interpreted to discriminate against non-generator suppliers. He said that NYISO's counsel had done a good job of what would be a qualified resource for tariff language.

Mr. William Palazzo (NYPA) asked how the ISO would pay a synchronous condenser. Mr. Ted Murphy (Hunton & Williams) responded that as a practical matter it has not happened.

It was agreed that a break be taken to discuss the proposed changes. Mr. Picardi soon thereafter reconvened the meeting and asked that updated motion language revisions, which could be viewed as friendly, be presented and that the tariff language be discussed.

The motion presented included revisions agreed upon by the principal parties.

Motion #3:

The Management Committee (MC) hereby approves tariff modifications, including revisions made during the meeting, which provide for comparable treatment under the NYISO tariffs for qualified non-generator voltage support (VSS) dynamic reactive power resources for compensation for their tested VSS capability, including the Cross Sound Cable.

With respect to the Cross Sound Cable, the tariff will be amended to reflect the following rules:

1. Payment to CSC: Prorated VSS payment for energized hours for tested VAR capability measured at full real power flow.

2. Lost Opportunity Costs: No lost opportunity cost payments provided that CSC is not required to change real power schedules for purposes of voltage support. Nothing in this motion shall be construed to change existing protocols between the New England ISO and the New York ISO to maintain the reliability of the system.

3. Metering/Testing: CSC to be subject to comparable metering and testing procedures including, interim testing procedures that allow facilities that are

not currently reactive power suppliers receiving compensation to test out of period as necessary to qualify for payment.

4. Cost of Energy Consumed: Payment for facility energy consumed in order to energize the CSC if the NYISO were to request that the CSC be energized to provide reactive capability to the NYCA.

The MC approves amending the tariff in the manner described herein, and recommends to the NYISO Board of Directors that the NYISO make a filing pursuant to Section 205 of the Federal Power Act.

Tariff language will be provided to the members of the MC and approved by the Chairs of the MC and the BIC prior to filing.

Motion passed unanimously by show of hands with abstentions.

6. New Business

No new business.

7. Adjournment

Meeting was adjourned at 12:50 p.m.

NYISO Management Committee Meeting

June 28, 2006

NYS Nurses Association

MOTIONS FROM THE MEETING

Motion #1: Motion to approve the May 31, 2006 meeting Minutes. Motion passed unanimously by show of hands.

Motion #2:

The Management Committee (MC) hereby approves tariff modifications, as presented to the MC on June 28, 2006, addressing the pre-payment program contained in the NYISO's credit policy, and recommends to the NYISO Board of Directors that the NYISO file the proposed tariff modifications pursuant to Section 205 of the Federal Power Act. *Motion passed unanimously by show of hands with abstentions.*

Motion #3:

The Management Committee (MC) hereby approves tariff modifications, including revisions made during the meeting, which provide for comparable treatment under the NYISO tariffs for qualified non-generator voltage support (VSS) dynamic reactive power resources for compensation for their tested VSS capability, including the Cross Sound Cable.

With respect to the Cross Sound Cable, the tariff will be amended to reflect the following rules:

1. Payment to CSC: Prorated VSS payment for energized hours for tested VAR capability measured at full real power flow.

2. Lost Opportunity Costs: No lost opportunity cost payments provided that CSC is not required to change real power schedules for purposes of voltage support. Nothing in this motion shall be construed to change existing protocols between the New England ISO and the New York ISO to maintain the reliability of the system.

3. Metering/Testing: CSC to be subject to comparable metering and testing procedures including, interim testing procedures that allow facilities that are not currently reactive power suppliers receiving compensation to test out of period as necessary to qualify for payment.

4. Cost of Energy Consumed: Payment for facility energy consumed in order to energize the CSC if the NYISO were to request that the CSC be energized to provide reactive capability to the NYCA.

The MC approves amending the tariff in the manner described herein, and recommends to the NYISO Board of Directors that the NYISO make a filing pursuant to Section 205 of the Federal Power Act.

Tariff language will be provided to the members of the MC and approved by the Chairs of the MC and the BIC prior to filing.

Motion passed unanimously by show of hands with abstentions.
