*September 20, 2010*

# Project Background

- ◆ The Consolidated Invoice application requires a redesign to support the changing business processes of the Customer Settlements Department and to align with the NYISO technology footprint.
- ◆ The current application is not scalable or flexible, resulting in limitations to functionality and application evolution which increases the need for manual processes.
- ◆ This technology migration will enable the Consolidated Invoice application to support monthly or less than monthly Flexible Invoicing Periods (FIP).

# Requirements Process

- ◆ Reviewed previously submitted MP issue/enhancement requests
- ◆ Reviewed Market Participant feedback received in 2009 to support accelerated cash clearing
- ◆ Internal requirements definition in process
- ◆ Review requirements, prototypes, etc with Market Participants

# High-Level Requirements

# High-Level Requirements

- ◆ Settlement Calculations
  - *Daily settlements can be invoiced on a FIP or Monthly billing period*
  - *Monthly settlements will remain monthly*
  - *Details included in previous presentations*
- ◆ Enhance Payment Visibility
  - *Netting of invoices by common banking dates (e.g. Requitel and Disbursement dates)*
  - *Past due amounts*
  - *Overpayment amounts*
  - *Separate and distinct line items for Prepayments and Bad Debt Loss*

# High-Level Requirements

- ◆ Application design with a more robust and flexible technology
- ◆ Maintain existing support for Monthly invoicing
- ◆ Improve queries and reporting for Invoicing, Working Capital, Pre-payments, and Bad Debt Loss
- ◆ Enhance invoicing capabilities to support Flexible Invoicing Periods (FIPs)
- ◆ Focus on process improvements
  - *Streamline NYISO departmental processes*
  - *Reduce manual processes including minimizing redundant data entry into multiple systems*

# *Requirements and Questions*

# Invoice Summary

- ◆ Invoice format will be consistent for all billing periods
- ◆ May include the following billing period types:
  - *FIP*
  - *Initial Month Settlement*
    - Includes all days in a billing month regardless of whether it had been previously included on a FIP invoice
  - *Four Month True-Up*
  - *Final Bill Close Out*
- ◆ All billing periods with the same disbursement and requital dates will be included on the same invoice
- ◆ Adjustments will continue to be applied at a monthly level
- ◆ Clear distinction between draft and final invoices
- ◆ Maintain same payable convention
- ◆ Clear identification of the invoice disbursement or requital date

# Invoice Summary and Details Queries

- ◆ Enhanced Invoice Summary and Invoice Detail Query Options
  - *Currently user requests invoice or invoice detail by selecting a billing month and version which is included on the desired invoice*
  - *Update query: Based upon user requested date range; application will provide user with a listing of Invoices and associated Billing Periods within that date Range*

## *Invoice Summary and Detail: Move Detail Data?*

### Discussion of Option:

- ◆ Separately provide Invoice Summary and Invoice Detail
- ◆ Invoice Summary only includes cover page
- ◆ Invoice Detail Report or Reports would include:
  - *Settlement breakdowns (no change from current Invoice Detail report)*
  - *Adjustments with comments*
  - *Pre-payments*
  - *Bad Debt Loss*

## Daily Reconciliation Query

- ◆ Daily Reconciliation report supported in Marketplace and Bidpost (as a download)
  - *Bidpost: No Changes*
  - *Marketplace: Currently user restricted to either 'Daily' or 'Month-to-Date' for either Dollar or MW reports*

## *Daily Reconciliation Query (Continued)*

- ◆ Proposed Querying as follows:
  - *User selects start and end date range*
  - *User selects report output:*
    - Individual Daily Results - each billing day on separate report or tab
    - Aggregate Results – summation of all billing days within date range
    - Aggregate Billing Period Results – summation of all billing days within date range; each billing period on separate report or tab
- ◆ Which output format preferred? (XLS, CSV)
  - *Daily Reconciliation download will continue to be supported in CSV*

## *Working Capital Query and Display*

- ◆ Currently:
  - *Monthly Working Capital balances and interest are available at bottom of Invoice Summary*
  - *All Working Capital transactions for an MP available in Detail report*
  - *Working Capital query does not permit user to request date range; **entire history always provided***
- ◆ Recommend streamlining Working Capital data for the MP
- ◆ Recommended Changes:
  - *Remove working capital monthly data from bottom of invoice*
  - *Update Working Capital Detail Report to include data from bottom of invoice (e.g. Opening Balance, Closing Balance)*
  - *Include user defined date range for Working Capital Query*
  - *Which output format preferred (XLS, CSV)?*
  - *No change to Yearly Working Capital Line Item on Invoice*
