

# SMD2 Market Exercise Update

Market Structures Working Group  
June 14, 2004

# Activity to date

- SMD2 MIS *Sandbox*
  - 91% of customer organizations participated at targeted level
  - 98,000 “hits” recorded on test environment
  - 19 organizations received “lack of participation” letters from the NYISO
  - A few open MP connectivity issues still exist
- SMD2 Training
  - 81 customer organizations represented
  - ~ 180 individuals registered to date
  - Next class scheduled for June 22 in Houston

# DAM Market Exercises

- Two exercises scheduled
  - June 24
  - July 8
- Based upon historic days
  - Winter day – January 15, 2004
  - Spring day – May 13, 2004
- Test of ability to participate in full DAM cycle

# Two-Settlement Exercises

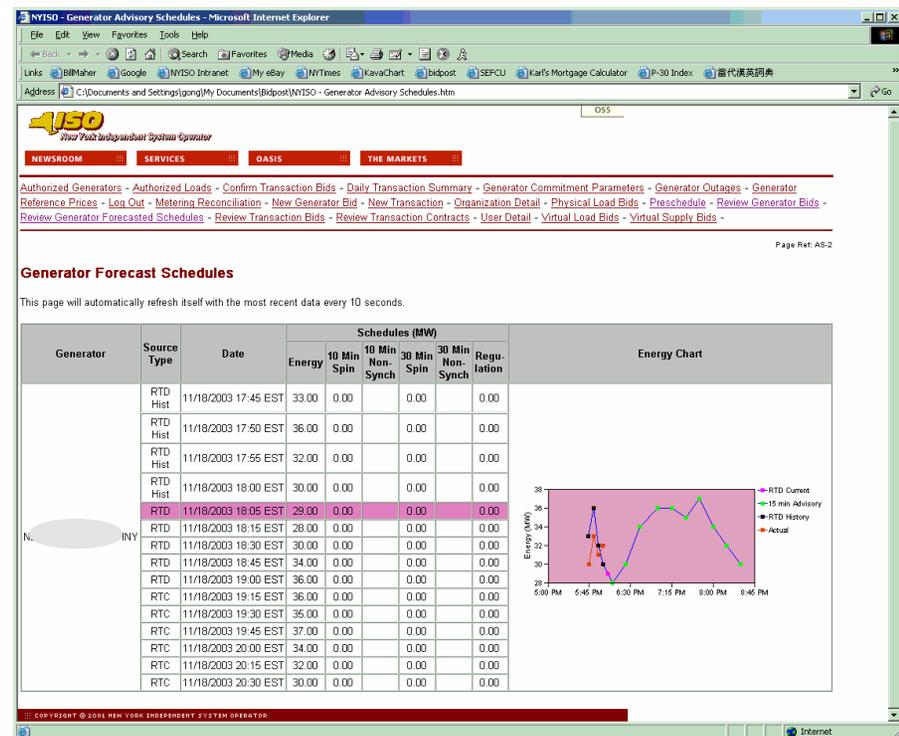

- Three exercises scheduled
  - July 22
  - August 5
  - August 19
- Based upon historic days
  - Winter day – January 15, 2004
  - Spring day – May 13, 2004
  - Summer day – TBD

# Two-Settlement Exercises

- Exercises will include Real-Time events
- The majority of Market Participant test scenarios submitted will be incorporated into at least one of the exercises
  - LECG will participate in simulator scripting and report on test results for each MP test scenario submitted
    - AMP tests may require orchestrated bidding effort
    - Reserve Demand Curves must be tested separately in a controlled environment

# Two-Settlement Exercises

- Generators can follow RT exercise activities with the **Review Forecast Generator Schedules** web screen

# Two-Settlement Exercises

- Daily, hourly and RTD level advisory billing data will be posted for download following each exercise
- The NYISO will host an exercise review session (teleconference) following each exercise
