

## **NYISO Business Issues Committee**

May 20, 2005

NYISO

### **MOTION FROM THE MEETING**

#### **Motion #1:**

The Business Issues Committee (BIC) recommends that the Management Committee approve revisions to the tariff to allow for modified treatment of 10-Minute Resources in RTS, as outlined in the presentation and Concept of Operations document presented to the BIC at the May 20th meeting. The BIC also requests that NYISO staff provide draft Tariff language prior to the Management Committee meeting on May 27<sup>th</sup>.

This would allow 10-Minute Resources not yet committed, which have met their minimum downtime requirement, to be scheduled and participate in real-time price setting when needed and economic to meet load, subject to reliability considerations associated with unit minimum generation levels.

The NYISO will report on the operation of this functionality, discuss with MSWG the nature of the information to be provided, and discuss opportunities to reduce uncertainties between RTC and RTD.

***(Motion passed unanimously by show of hands with abstentions)***
