Re: Opposition to the Appeal of the Independent Power Producers of New York, Inc.

Dear Chairman Boston:

The Price Responsive Load Coalition (PRLC) as represented by Customized Energy Solutions, Ltd, a non-voting member of the NYISO, opposes the appeal of the Independent Power Producers of New York, Inc. on the decision of the February 2,2004 NYISO Management Committee on the DRP/DG voting rights.

The PRLC participated actively in the discussions at the Bylaws Subcommittee meetings and supports the motion passed at the February 2, 2004 NYISO Management Committee (MC) meeting. There were a number of issues that our membership conceded in order to reach consensus with the subcommittee and ultimately concurred with the motion brought forward to the MC.

The PRLC fully supports the position presented by the MuLtiplE Intervenor's in their "Motion in Opposition to the Appeal of the Independent Power Produces of New York, Inc".

The members of the **PRLC** are:

Advantage Energy  
Association for Energy Affordability  
Constellation New Energy  
The E Cubed Company, LLC  
Electrotek  
Itron

Very truly yours,

Stephen Fernands  
Executive Director

Price **Responsive Load Coalition**
