

Balance-of-Period TCC AMS Design Changes

Curt Devenitch

Project Manager

Design WebEx

April 6, 2017 Teleconference

Agenda

- **Project Overview**
- **Review of TCC Automated Market System (AMS) Changes**
- **Review of Data Reporting Changes**
- **Next Steps**

Project - Overview

- **The Balance-of-Period (BoP) project is intended to replace the current monthly Reconfiguration Auction structure with a new monthly BoP TCC auction structure**
 - Unlike the current single month Reconfiguration Auction structure, the monthly BoP TCC auctions will provide Market Participants (MPs) the ability to purchase and sell TCCs for all remaining months of a Capability Period
- **The project also includes enhancements to the credit requirements for TCCs**
 - The enhancements, in part, leverage the additional TCC market-clearing price data that will be made available by the BoP TCC auctions to recalculate TCC collateral holding requirements on a monthly basis

Digital Certificates

- All users must have a NAESB-compliant digital certificate linked to their MIS user name by May 1, 2017 in order to access NYISO applications.
- For instructions on obtaining and using a NAESB-compliant digital certificate, refer to the **NYISO Market Participant User's Guide**, available from the NYISO Web site:
http://www.nyiso.com/public/markets_operations/documents/manuals_guides/index.jsp

Changes To The View Rounds Screen In The TCC AMS

View Rounds

- Slight changes were made to the View Rounds screen

Periods Field Rules

- **Periods field currently exists in the TCC AMS but is optional for auction rounds with a single period (defaults to only valid Period ID)**
 - A Period ID is a whole number that uniquely identifies a period within a given round
- **Periods field is required for multi-period auctions**
- **MPs initially will be required to submit separate bids/offers for each period in which the MP is seeking to purchase/sell TCCs**

Upload Set Data Row Examples

Changes To Transactions To Support Balance-of-Period

Sell a Portion Transaction

- Greater flexibility has been added to allow Sell a Portion transactions for monthly increments
- The end date of the transaction is no longer restricted to the end date of the contract
- End date is now required

Future Communications

- **Market Trials**

- Planned for week of June 5th

- **WebEx Training Sessions**

- Multiple sessions planned for the weeks of May 29th and June 12th
- Detailed review of system changes

- **User's Guide Updates**

- To be posted the day after software deployment

Questions?

The Mission of the New York Independent System Operator is to:

- Serve the public interest and
- Provide benefit to stakeholders by
 - Maintaining and enhancing regional reliability
 - Operating open, fair and competitive wholesale electricity markets
 - Planning the power system for the future
 - Providing factual information to policy makers, stakeholders and investors in the power system
