

Recent AMP Developments

S&PWG – 2/15/05

BPCG Mitigation

- Intended to address economic withholding
- The functionality that performs the second BPCG test within the AMP has been disabled and tested in SMD2 to confirm it won't trigger
- AMP testing of BPCG impact for units economically committed prior to mitigation is functioning properly

Market Impacts

- Rest of State – (5) days; (11) units mitigated for BPCG impact
- Unit owners have been notified. Corrections will be made in true-up process
- LBMP impact communicated was ESTIMATED
- Estimates were based on pass 1 outcome, SCUC was not re-run.
- The NYISO is considering requests that it re-state market prices for the affected hours

Other Actions

- FERC communication continues
- Market Advisor/NYISO continue to support appropriate mitigation of Market Power
- Calculation of estimated impact of AMP BPCG mitigation on affected units is in progress and will be provided to affected unit owners when complete

Court of Appeals Ruling

- Scope of decision exceeds issues on appeal
- NYISO preparing motion for rehearing to clarify questions for FERC on remand
- Motion due by February 28, 2005

**January 24, 2005 Mitigation LBMP Change
SCUC Study - Impact of Zonal GP2 Only**
