

# NYISO Management Committee Meeting

May 27, 2005

Special Teleconference  
10 a.m – 11 a.m.

## Draft MINUTES OF THE MEETING

### 1. Introductions, Meeting Objectives & Chairman's Report

Chris Wentlent of AES, Chairman, called the meeting to order at 10:00 AM and welcomed the members of the Management Committee ("MC"). The meeting objectives are to:

- Act to on the Proposal for Modified Treatment of 10-Minute ~~Gas Turbines~~ Resources by RTS.

Rick Gonzales, Manager of NYISO Market Operations, stated that the proposal being presented was discussed at the previous BIC. Mr. Gonzalez asked for any questions on the substance of the proposal and there were none. He advised that tariff language had been distributed the previous Tuesday, with slight revisions distributed the previous day.

Several MPs had questions about the tariff language.

Mark Younger of Slater Consulting requested that the NYISO clarify the proposed tariff language on page 331.00H that the hybrid GTs pricing rules shall apply to GTs that are turned on. NYISO clarified that the hybrid pricing and commitment rules that currently apply to GTs will apply to the GTs committed through this process as well.

Tim Foxen of NRG expressed concerns with the proposed tariff language on page 98A.01, "May be physically started the operator." NYISO agreed to modify the language to indicate that the NYISO would use its standard process to communicate the need to start GTs scheduled and committed using this process.

Doreen Saia of Mirant made reference to the proposed tariff language on page 98A.01, "When necessary to meet load." Ms. Saia stated that these units were to be committed only when necessary and economic. Mollie Lampi, NYISO Assistant GC, indicated that the RTD algorithm includes an analysis of the economics of a unit and the scheduling of these resources would derive from that algorithm. Ms. Lampi expressed a concern that adding the word "economic" to the tariff in this phrase would be redundant and therefore potentially confusing. Ms. Saia requested that the minutes reflect that these units are scheduled using the RTC logic that already includes a test that they are economic.

**Motion #1:**

The Management Committee approves revisions to the tariff to allow for modified treatment of 10-Minute Resources in RTS, as previously approved by the Business Issues Committee and presented at the Management Committee meeting of May 27, 2005. This modification will allow 10-Minute Resources not yet committed, which have met their minimum downtime requirement, to be scheduled and participate in real-time price setting when needed and economic to meet load, subject to reliability considerations associated with unit minimum generation levels. The MC concurs with the BIC request that the NYISO report on the operation of this functionality, discuss with MSWG the nature of the information to be provided, and discuss opportunities to reduce uncertainties between RTC and RTD.

*(Motion passed unanimously with abstentions)*

**2. New Business**

| [Mayer-Mayer](#) Sasson of Con Edison asked "Now that the AMP is turned off for the rest of state ("ROS"), would the NYISO agree to inform Market Participants each time it is concluded that had the AMP been in place it would have been triggered?" The NYISO | took an action item to I report back to the members of the MC regarding [MrDr.](#) Sasson's request.

**3. Adjournment**

Meeting was adjourned 10:55

## New York Independent System Operator - Committee Membership

### Management Committee - Attendance May 27, 2005 - Albany, NY - Parties Checked in Attendance

Organization	Sector	Representative	Alternate1	Alternate2	Alternate3	Alternate4	Alternate5	Proxy	Guest
