

Billing and Accounting Database Upgrade

Janet Friauf

*Product Manager – Infrastructure Products
New York Independent System Operator*

BAWG

NYISO - 10 Krey Blvd, Rensselaer, NY

April 19, 2010

BAS Database Upgrade

- ◆ The Billing and Accounting System (BAS) database is currently scheduled for an outage from **4pm, Friday May 21st** to Monday 8am
- ◆ The outage is needed to migrate to new hardware and to upgrade to Oracle 11g in order to maintain performance and system support

BAS Database Upgrade

- ◆ Daily Advisories will not be produced during the outage
- ◆ Market Participants will be unable to upload or download via SDX during the outage, e.g.:
 - *Generator and Tie data*
 - *Minimum Oil Burn event data*
- ◆ SDX will be available for upload/download between 8am - 12pm Monday, May 24th
- ◆ The advisory process will begin Monday afternoon, starting with Friday's bill

BAS Database Upgrade

- ◆ A timeline will be supplied in early May via an email to the Tie List and BAWG Distribution List
- ◆ An update will be provided at the May BAWG meeting
- ◆ Communication of outage start and finish times will be provided via email
- ◆ Please contact CRD if you have any questions

The New York Independent System Operator (NYISO) is a not-for-profit corporation that began operations in 1999. The NYISO operates New York's bulk electricity grid, administers the state's wholesale electricity markets, and conducts comprehensive planning for the state's bulk electricity system.
