

## **NYISO Business Issues Committee Meeting**

*February 7, 2007*

*Holiday Inn, Albany NY*

### **MOTIONS FROM THE MEETING**

#### **Motion #1:**

Motion to approve the Minutes of the January 10, 2007 BIC meeting.

*Motion passed unanimously by show of hands with abstentions.*

#### **Motion #2:**

The Business Issues Committee (BIC) hereby recommends that the Management Committee approve Revisions to the NYISO's Market Services Tariff and OATT that are necessary to implement a second Proxy Generator Bus at the Chateauguay Interface between the New York Control Area and the Hydro Quebec Control Area.

Adding a second Proxy Generator Bus at Chateauguay will permit NYISO to optimize the potential combination of Import/Export and Wheel-through transactions up to the full (1500 MW) capacity of the interface. More generically, the ability to implement multiple Proxy Generator Buses representing a single interface will enable the NYISO to distinguish the bidding, treatment and pricing of products and services available at a particular Interface.

The proposed tariff revisions: (1) explicitly enable the assignment of more than one Proxy Generator Bus to an Interface, (2) explain the purposes for which the NYISO may implement a second proxy at a particular interface (3) change certain pricing rules, including but not limited to the Non-Competitive Proxy Generator Bus pricing rule and the "ECA-B" pricing rule, to explain how these rules apply to Proxy Generator Buses located at interfaces that are represented by more than one Proxy Generator Bus.

*Motion passed unanimously by show of hands with abstentions.*

#### **Motion #3:**

The Business Issues Committee (BIC) hereby recommends that the Management Committee (MC) approve amendments to the NYISO's Market Administration and Control Services Tariff and Open Access Transmission Tariff to enable the NYISO to suspend a customer's ICAP transaction privileges if the customer has an unsatisfied payment or credit obligation following an ICAP Spot Market Auction, as presented to the BIC on February 7, 2007.

*Motion passed unanimously by show of hands.*

**Motion #4:**

The Business Issues Committee (BIC) hereby recommends that the Management Committee (MC) approve amendments to the Virtual Transactions credit requirements in Attachment K of the NYISO's Market Administration and Control Services Tariff and Attachment W of the NYISO's Open Access Transmission Tariff as presented to the BIC on February 7, 2007.

*Motion passed unanimously by show of hands.*

**Motion #5:**

The Business Issues Committee hereby recommends that the Management Committee approve changes to the NYISO's Market Administration and Control Area Services Tariff and its Open Access Transmission Tariff as presented to the BIC on February 7, 2007, including to: (i) amend the definition of "injection billing units" in Schedule 1 of the OATT and Rate Schedule 1 of the Services Tariff to, include wheelthrough injections as injection billing units; and further to amend the definition of withdrawal billing units in Schedule 1 of the OATT and Schedule 1 of the Services Tariff to include wheelthrough withdrawals as withdrawal billing units (ii) correct an erroneous cross-reference related to Capacity Limited Resources; (ii) clarify the formula for making lost opportunity cost payments to suppliers of voltage support; (iii) clarify the settlement of bilateral transactions; (iv) correct the formula for allocating certain Bid Production Cost guarantee payments; (v) clarify the calculation of certain Bid Production Cost guarantee payments; (vi) clarify the NYISO's collection of NTAC from all LSEs; and (vii) revise the method for allocating black start costs.

*Motion passed unanimously by show of hands with abstentions.*
