ICAP Manual Revisions

Unforced Deliverability Rights

- Section 4.14.2
 - Language was added to describe the processes to request and to grant UDRs
- Section 4.14.3
 - Language was added to describe the annual process to return awarded UDRs
 - An example was included that describes the modeling of the returned UDRs and retained UDRs in the NYSRC and NYISO reliability studies used to determine the NYCA Installed Reserve Margin and Locational Minimum Installed Capacity Requirements
- Reflects comments provided at ICAP WG meeting on 10/25/05, subsequent LIPA comments & NYISO legal review
