

NYISO Management Committee Meeting

March 20, 2007

NYSNA

MOTIONS FROM THE MEETING

Motion #1:

Motion to approve the Minutes of the February 21, 2007 and March 1, 2007 Management Committee meetings.

Motion passed unanimously by show of hands with abstentions.

Motion #2:

The Management Committee (MC) hereby approves modifications to section 10 of the NYISO Open Access Transmission Tariff (OATT) and Section 12.3 of the NYISO Market Services Tariff (MST), as reviewed by the By-Laws Subcommittee on March 5, 2007, and as presented to the MC on March 20, 2007, which address limitations on liability. The MC recommends to the NYISO Board of Directors that the NYISO file the proposed tariff modifications pursuant to Section 205 of the Federal Power Act.

Motion passed with 76.57% affirmative votes.

Motion #3:

The Management Committee (MC) hereby recommends to the NYISO Board of Directors that the NYISO file proposed tariff modifications pursuant to Section 205 of the Federal Power Act to add a Margin Restoration Payment for Generators named in the application of NYSRC's Local Reliability Rule I-R-3, and any Generator named in future revisions to the application, pursuant to the calculation of and conditions for such payment described in the presentation made to the MC on March 20, 2007.

Motion passed unanimously by show of hands with abstentions.

Motion #4:

The Management Committee (MC) hereby recommends to the NYISO Board of Directors that the NYISO file tariff modifications pursuant to Section 205 of the Federal Power Act consistent with proposed changes to the NYISO demand response program for zone J so that response could be called on an individual targeted basis when necessary for local reliability.

As approved by the Business Issues Committee(BIC) on March 7, 2007, and as presented to the MC on March 20, 2007, Special Case Resource Program participants would be voluntarily responsible for complying with targeted calls and would not be subject to penalties for such targeted calls as set forth in the NYISO tariff.

Emergency Demand Response Program participants would also be subject to sub-zonal calls in zone J, pursuant to NYISO tariff provisions for that program. As these calls are designed to provide for local reliability in Zone J, the costs associated with such events will be allocated consistently with the provisions applicable to Local Reliability Rules and therefore assigned solely to customers within Zone J. Further,

the MC concurs with the BIC request that the results be reported and discussed at the PRLWG at its regular Fall meeting as part of the review of the prior summer demand resource program's performance, with further consideration of network by network needs. If indicated, any actions should be pursued through the stakeholder process to be in place for the following summer.

Motion passed unanimously by show of hands with abstentions.

Motion #5:

The Management Committee (MC) hereby recommends to the NYISO Board of Directors that the NYISO file proposed tariff modifications pursuant to Section 205 of the Federal Power Act to revise the (1) Market Services Tariff, (2) OATT, and (3) ISO Agreement, to implement the Northport-Norwalk intertie as a Scheduled Line.

Modifications to the ISO/TO Agreement will be made pursuant to the terms of that agreement.

The NYISO shall prepare such revisions, consistent with the proposal approved by the Business Issues Committee on March 7, 2007, and as presented to the MC on March 20, 2007, and have such revisions distributed to the MC Members and reviewed and approved by the Chairs and Vice Chairs of the Operating, Business Issues, and Management Committees prior to filing with the Commission.

The proposed tariff revisions are needed to: (a) identify the Northport-Norwalk interface as a Scheduled Line, (b) permit LIPA to provide "blanket" pre-approval of specific classes of transaction over the Northport-Norwalk intertie by Market Participants (c) permit the NYISO to use SCUC and RTC to determine Day-Ahead and Real-Time schedules on the Northport-Norwalk Scheduled Line for transactions that fall within one of the pre-approved categories, and (d) if, and to the extent necessary, permit the NYISO to reduce schedules and/or curtail transactions on the Northport-Norwalk Scheduled Line to preserve reliability.

In addition, the MC recommends that the NYISO not implement the Northport-Norwalk intertie as a Scheduled line unless and until: (i) the NYISO receives adequate assurances from LIPA that the tax exempt status of various bond issuances by LIPA or by NYSERDA on LILCO/LIPA's behalf will not be jeopardized thereby, and (ii) the NYISO and LIPA implement procedures that may be necessary to protect the status of the LIPA financings and reliability, including LIPA pre-approval letter(s) and PAR Operating Agreement(s).

Motion passed unanimously by show of hands with abstentions.
