**Nodal Prices are not provided because the auction did not clear \*.**

\* The July 2002 TCC Reconfiguration Auction did not clear. Therefore, there are no market clearing prices to post.

The NYISO's auction systems worked properly in the July Reconfiguration Auction, and properly reflected the transmission facility outages expected during the Effective Period. See, NYISO OATT, Attachment M, Section 8.6. The Optimal Power Flow analysis did not reach a simultaneously feasible result to award any TCCs based on available offers and bids.
