

Part 3 – DSASP Resource Enrollment in DRIS Demand Response Information System (DRIS) Training for March 2013 Deployment

Michael Lavillotti

Product Business Analyst

New York Independent System Operator

Tuesday, March 5th, 2013 09:00 AM – 12:00 PM

Thursday, March 14th, 2013 01:00 PM – 04:00 PM

Web Ex - Rensselaer, NY

Training Topics

- ◆ Part 1: Introduction to DRIS
 - *DRIS User Requirements*
 - *User Privileges*
 - *Access to DRIS*
- ◆ Part 2: DSASP Overview
- ◆ **Part 3: DSASP Resource Enrollment in DRIS**
 - *Export Enrollment File*
 - *Import DSASP Resources*
 - *Resource Import Validations*
 - *Manage Import Results*
- ◆ Part 4: DSASP Aggregations in DRIS
 - *View DSASP Aggregations and Resources*
 - *DSASP Resource Enrollment Statuses*
 - *Manage DSASP Aggregations*
- ◆ Part 5: DSASP Resource Registration for MIS
 - *Export DSASP Resource Report from DRIS*
 - *Submit DSASP Registration Report*
- ◆ Part 6: Submitted Aggregations in DRIS
 - *View History of Submitted Aggregations*
- ◆ Part 7: View DSASP Resource Enrollment in DRIS
- ◆ Part 8: Deployment
 - *Additional Training Sessions*
 - *Deployment Activities*

Prerequisites to DSASP Resource Enrollment

- ◆ Prior to importing DSASP resources into DRIS, Market Participants must have completed the following:
 - ***Contact Member Relations***
 - Register as a NYISO Customer
 - Register as a DSASP Provider
 - ***MIS***
 - Have DRIS user privileges assigned by the MP organization MIS Administrator
 - ***DRIS***
 - Assign a contact type of “Admin” for DSASP in DRIS

Prerequisites to DSASP Resource Enrollment

- ◆ Contact Types

- Assign a contact type of “Admin” for DSASP in DRIS

1

2

3

For more information on adding contacts, reference the 12/02/2010 DRIS Training Materials Slide Deck – “5 – Manage Organization Contacts” Located at:
http://www.nyiso.com/public/markets_operations/market_data/demand_response/index.jsp

© 2009-2013 New York Independent System Operator. All rights reserved. You are logged in as 6/28/2011

Enroll DSASP Resources

- ◆ **DSASP Resource enrollment in DRIS consists of:**
 - *Export the DSASP Enrollment Import file to use as template*
 - *Import the DSASP Enrollment Import file with resources added*
 - **DRIS will validate DSASP Resources**
 - *Review and possible action on resource import Exceptions*
 - *Review and possible action on resource enrollment requests*

DSASP Enrollment Import File

- ◆ Export import template or current enrollment data for DSASP Resources
 - *Export blank import file or existing resources from DRIS*
 - *Download blank import file from NYISO website*
 - http://www.nyiso.com/public/markets_operations/market_data/demand_response/index.jsp

The screenshot shows the NYISO website's 'Demand Response Programs' page. At the top, there is a navigation bar with links for 'About NYISO', 'Markets & Operations', 'Planning For The Future', and 'NYISO's Media Room'. A search bar is located in the top right corner. The main content area is titled 'Demand Response Programs' and contains the following text:

The NYISO has four Demand Response programs: the Emergency Demand Response Program (EDRP), the ICAP Special Case Resources (SCR) program, the Day Ahead Demand Response Program (DADR) and the Demand Side Ancillary Services Program (DSASP).

Both the EDRP and SCR program can be deployed in energy shortage situations to maintain the reliability of the bulk power grid. Both programs are designed to reduce power usage through shutting down of businesses and large power users. Companies, mostly industrial and commercial, sign up to take part in the programs. The companies are paid by the NYISO for reducing energy consumption when asked to do so by the NYISO. Reductions are voluntary for EDRP participants. SCR participants are required to reduce power usage and as part of their agreement are paid in advance for agreeing to cut power usage upon request.

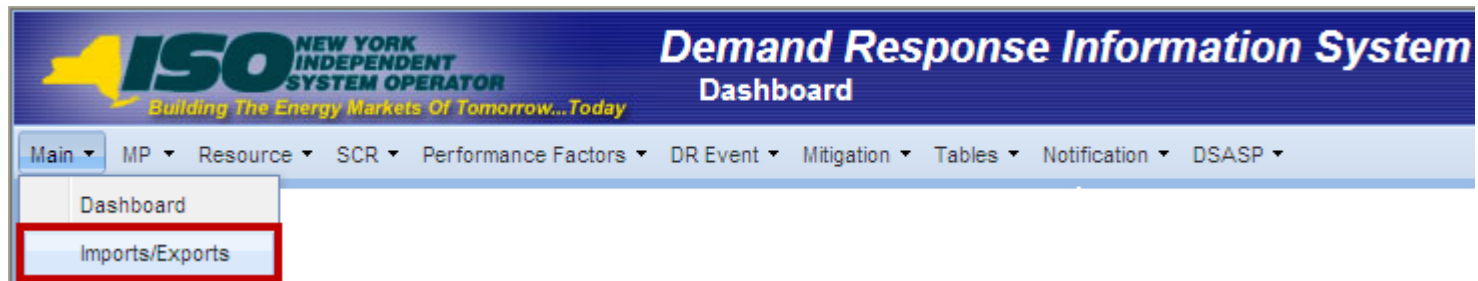

The NYISO's Day-Ahead Demand Response Program (DADR) allows energy users to bid their load reductions, or "megawatts", into the Day-Ahead energy market as generators do. Offers determined to be economic are paid at the market clearing price. DADR allows flexible loads to effectively increase the amount of supply in the market and moderate prices.

The Demand Side Ancillary Services Program (DSASP) provides retail customers that can meet telemetry and other qualification requirements with an opportunity to bid their load curtailment capability into the DAM and/or Real-Time Market to provide Operating Reserves and regulation service. Scheduled offers are paid the appropriate marketing clearing price for reserves and/or regulation.

Below the text, there are buttons for 'EDRP Mailbox', 'Login to DRIS', and 'Demand Response Documents & Resources'. The 'Demand Response Documents & Resources' section shows a table with columns for 'Type', 'Document Name', and 'Modified', and a 'View Details' button.

Prepare DSASP Enrollment Import File

- ◆ From the Main Menu select Imports/Exports

Prepare DSASP Enrollment Import File

- ◆ **DSASP Export File**

- *Select the current Capability Period*
- *Select the DSASP Resource Export from the Exports menu*
- *Select “Export” and choose to Save the export to use as the DSASP Enrollment import template*

The screenshot shows the 'Demand Response Information System Imports/Exports' interface. At the top, there is a navigation bar with the ISO logo and the text 'NEW YORK INDEPENDENT SYSTEM OPERATOR Building The Energy Markets Of Tomorrow... Today'. Below the navigation bar, there are several dropdown menus: Main, MP, Resource, SCR, Performance Factors, DR Event, Mitigation, Tables, Notification, and DSASP. The 'Capability Period' dropdown is set to 'Winter 2012-2013'. The 'Exports' menu is open, showing options like 'SCR Resource Exports', 'EDRP Resource Export', 'DSASP Resource Export' (highlighted), 'UCAP Worksheet', 'Energy Payments', 'Aggregation Performance Factors', and 'Aggregation UCAP Summary Export'. The 'Export' button is visible, and a red arrow points to the 'Export' dropdown menu at the bottom of the page.

DSASP Resource Enrollment Import File

- ◆ Header Rows

- *Effective Date = 04/01/13 (current date)*
- *Program Type = DSASP*

- ◆ Required Fields

- *Dependent on Resource Type and Aggregation Type*

Effective Date=04/01/2013&											
PROGRAM=DSASP&											
Resource ID	Resource Name	TO Account Num	Zone	Transmission Owner Abbreviation	Street	Street 2	City	State	Zip Code	Generator Type ID	Generator Name Plate Rating
22222222	Name 1	R564867431	C	RGE	123 Pine Mill Rd		Rochester	NY	14626		
	Name 2	T963498552	F	NMP	564 4th Ave Extension		Albany	NY	12210		

DSASP Authorization	Aggregation ID	Aggregation Type	Response Type	Spinning	Spinning & Regulation	Non - Sync	Summer Subscribed Load kW	Summer Subscribed Gen kW	Winter Subscribed Load kW	Winter Subscribed Gen kW	Direct Communication
Y		2	C	Y	N	N	800	0	800	0	Y
Y	1001	2	C	N	Y	N	800	0	800	0	Y

DSASP Resource Enrollment Data – Existing Fields

- ◆ DSASP Resource Enrollment Import fields which correspond to existing fields in the SCR and/or EDRP programs
 - *Resource ID*
 - *Resource Name*
 - *TO Account Number*
 - *Zone*
 - *TO Abbreviation*
 - *Street*
 - *Street 2*
 - *City*
 - *State*
 - *Zip Code*
 - *Generator Type ID*
 - *Generator Name Plate Rating*
 - *Aggregation ID*
 - *Response Type*

DSASP Resource Enrollment Data – New Data Required

- ◆ **Additional DSASP Resource Enrollment Import fields specific to the DSASP program**
 - *DSASP Authorization*
 - *Aggregation Type*
 - *DSASP Product(s)*
 - *Seasonal Load Reduction Capability (Winter and Summer)*
 - *Seasonal Generator Output (Winter and Summer)*
 - *Direct Communication*

DSASP Resource Enrollment Data – New Data Defined

◆ DSASP Authorization

- *Format: Must be Y or N*
- *Acknowledgement of agreement between individual resource and Market Participant*

◆ Aggregation Type

- *Format: Must be 1, 2, 3 or 4*
- *Aggregation Type corresponds to aggregation resource count and Market Product*

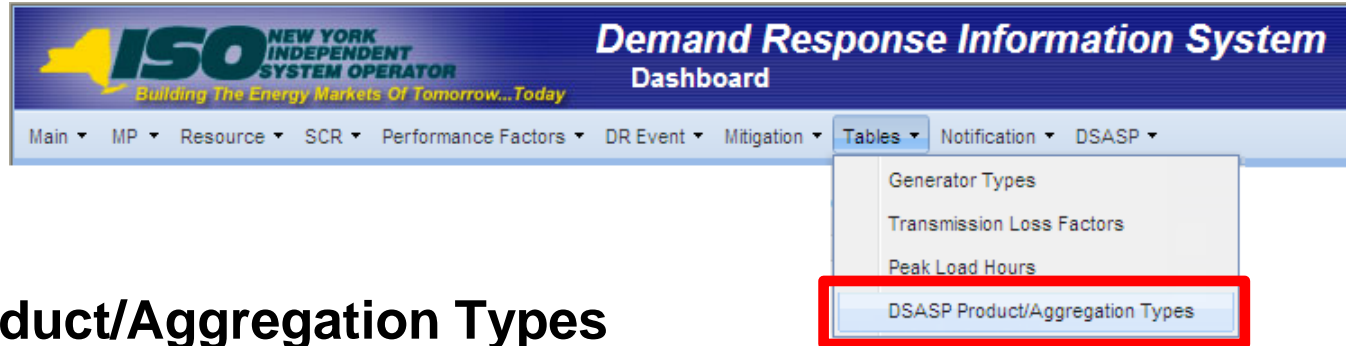

DSASP Resource Enrollment Data – Eligibility by Response Type

- ◆ **DSASP Response Type and Product Mix**
 - *Dependent on Response Type of a resource*
 - *Resources which meet criteria may participate in allowed product types either individually or as part of a group*
 - *Type C Resources may participate in all three product categories*
 - **Spinning, Non-Synchronous, Regulation**
 - *Type B and Type G Resources may only participate in the Non-Synchronous product category*

DSASP Resource Enrollment Data – Market Products

- ◆ **Spinning**
 - *Format: Y or N, if Y, other product categories must be labeled N*
- ◆ **Spinning & Regulation**
 - *Format: Y or N, if Y, other product categories must be labeled N*
 - *NPCC A-06 “Operating Reserve Criteria” was approved on 7/17/2007 to reflect:*
 - **Interruptible load eligible for synchronous reserve**
 - **Behind the fence generation eligible for non-synchronous reserve**
 - **No DSASP Resource connected to behind the meter generation of any kind is eligible for Spinning Reserves or Regulation**
- ◆ **Non-Sync**
 - *Format: Y or N, if Y, other product categories must be labeled N*
 - *Curtailment and/or eligible behind-the-meter Local Generator as demand response (Response Types B, C or G)*

DSASP Resource Enrollment Data

- ◆ **DSASP Product/Aggregation Types**

- *The following table illustrates which Aggregation Type ID value to assign each resource, depending on Response Type, whether the DSASP Resource is an Individual Resource or a group of resources and desired DSASP Product Category*

Aggregation Types							
		Demand Side Resource Response Type			Product type		
Aggregation Type ID	Description	B	C	G	Spinning	Spinning & Regulation	Non-Sync
1	Individual	N	Y	N	Y	Y	Y
2	Group	N	Y	N	Y	Y	N
3	Group	Y	Y	Y	N	N	Y
4	Individual	Y	N	Y	N	N	Y

DSASP Resource Enrollment Data – Load and Generation

- ◆ **Summer & Winter Subscribed Load kW**
 - *Format: Numeric, kW*
 - *Values based on Response Type:*
 - **B: Must be greater than or equal to zero**
 - **C: Must be greater than zero**
 - **G: Must be null or zero**

- ◆ **Summer & Winter Subscribed Gen kW**
 - *Format: Numeric, kW*
 - *Values based on Response Type:*
 - **B: Must be greater than zero, no greater than Name Plate Rating**
 - **C: Must be null or zero**
 - **G: Must be greater than zero, no greater than Name Plate Rating**

DSASP Resource Enrollment Data – Load and Generation

- ◆ **Summer & Winter Subscribed Load and Subscribed Generation kW**
 - *Validation of an individual Demand Side Resource into DRIS does not require values for both Capability Periods*
 - *Qualification of the Aggregate DSASP Resource requires greater than 1 MW of reduction capability for BOTH seasons*

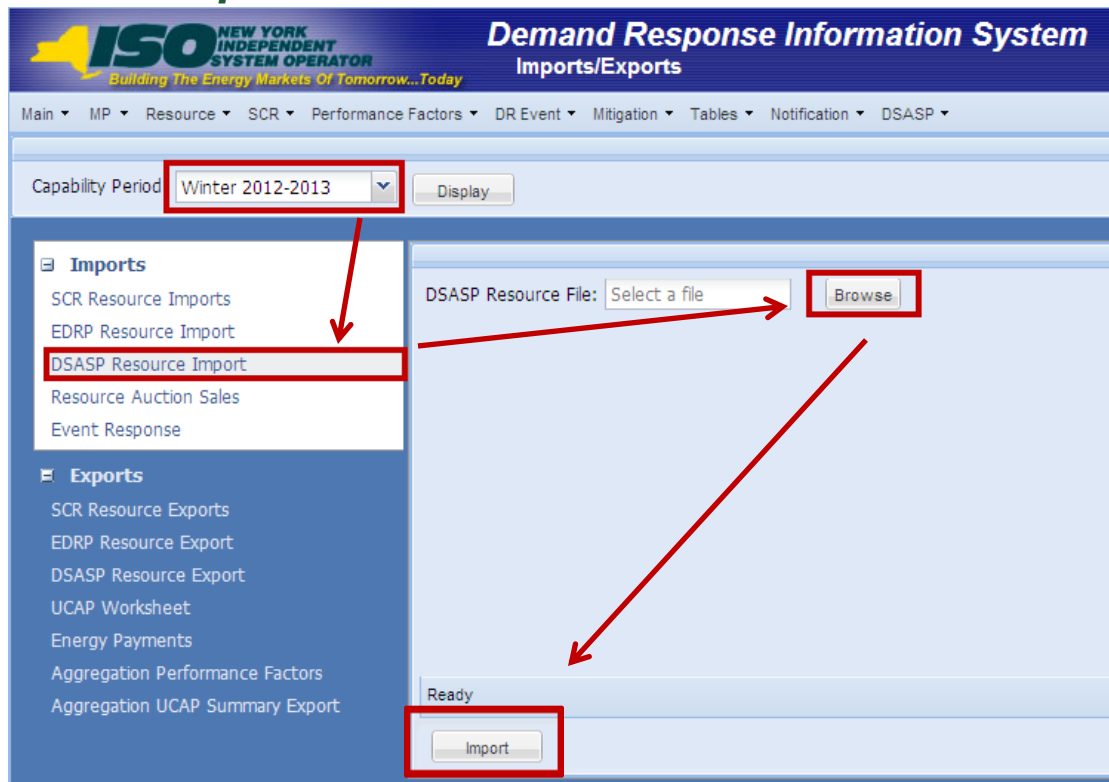

DSASP Resource Enrollment Data – Communication Type

◆ Direct Communication

- *Format: Y or N*
- *Represents the communication path of Resource/Aggregator with the NYISO*
- *Y = Direct Communication with NYISO*
- *N = Communication with NYISO through Transmission Owner*
- *Must have same response for all resources within same aggregation*

Import DSASP Enrollment File

- ◆ From the Main Menu select Imports/Exports
 - *Select the current Capability Period*
 - *Select the DSASP Resource Import from the Imports menu*
 - *Browse for the DSASP Enrollment Import file*
 - *Select “Import”*

DSASP Resource Data

- ◆ Example file: Subsequent Exports & Imports
 - *If a value is known and not being changed, it must be populated*

Effective Date=04/01/2013&

Import Results

- ◆ Import History Table
 - *Updated after every Import*

The screenshot displays the Demand Response Information System (DRIS) interface. At the top, the ISO logo and 'NEW YORK INDEPENDENT SYSTEM OPERATOR' are visible. The main header reads 'Demand Response Information System Imports/Exports'. Below this, there are navigation menus for Observer, MP, Resource, SCR, Performance Factors, DR Event, Mitigation, Tables, Notification, and DSASP. A 'Capability Period' dropdown is set to 'Winter 2012-2013' with a 'Display' button.

A sidebar on the left lists various report categories under 'Imports' and 'Exports', including 'SCR Resource Exports', 'EDRP Resource Export', 'DSASP Resource Export', 'UCAP Worksheet', 'DR Summary', 'Resource Responses to Event', 'Energy Payments', 'Performance Factors', 'Aggregation Performance Factors', 'Aggregation UCAP Summary Export', 'ICAP Equivalent of Resource Ucap Sold', 'Potential Unreported Shutdown', and 'Energy Over Performance'.

In the center-right area, a box displays 'Displaying 1 - 12 of 12' and a button labeled 'Export Exceptions'. A green arrow points from this button to the 'Option to export exceptions' text.

At the bottom, a table titled 'Import History' is shown with the following columns: Import Type, MP, File Name, Import Start Date, Import End Date, Record Count, Records Added, Records Exception, Records Pending, Records Energy Payment, Records Potential Mitigation, and Records No Change. The table contains several rows of data for DSASP_RESOURCE imports.

At the bottom right of the table area, another 'Displaying 1 - 12 of 12' box with an 'Export Exceptions' button is visible, also highlighted with a red box.

- *Option to export exceptions*

DSASP Resource Data

- ◆ **Import Summary and History Table Fields**
 - ***Record Count***
 - Total Resource records in file
 - ***Records Added***
 - Total new Resource records added to DRIS
 - ***Records Exception***
 - Total records which did not pass Validation
 - ***Records Pending***
 - Total records requiring review by NYISO
 - ***Records Potential Mitigation***
 - Does not pertain to DSASP
 - ***Records Payment***
 - Does not pertain to DSASP
 - ***Records No Change***
 - Total records whose state did not change, whether or not they currently exist in DRIS

DRIS Dashboard for DSASP – Descriptions

◆ Enrollment Requests

■ *Pending*

- Count of all Pending Requests displayed for Monitored Fields or Duplicate Enrollments

■ *Approved*

- Count of Enrollment Requests with a status of Approved, in the last 30 days

■ *Denied*

- Count of Enrollment Requests with a status of Denied, in the last 30 days

■ *Cancelled*

- Count of Enrollment Requests with a status of Cancelled, in the last 30 days

◆ Qualified MWs

■ *Summer*

- MP specific count of DSASP MWs for the Summer Capability Period

■ *Winter*

- MP specific count of DSASP MWs for the Winter Capability Period

DRIS Dashboard for DSASP – View Requests

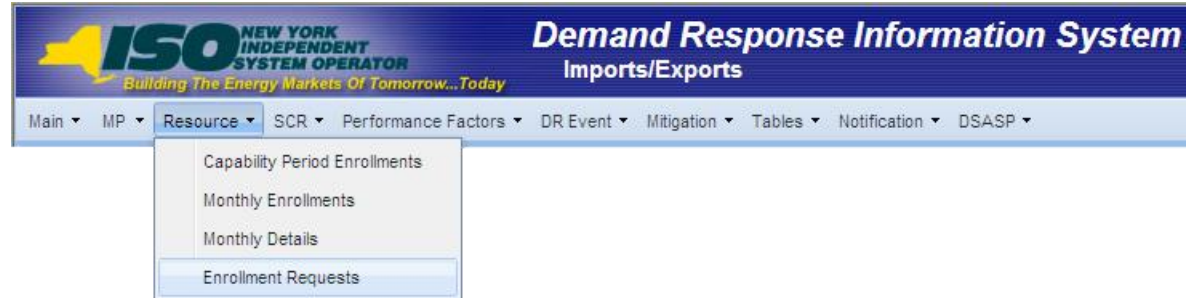

- ◆ Navigates to Resource Enrollment Requests Screen

A screenshot of the DSASP dashboard interface. The dashboard is titled "DSASP" and is divided into two main sections. The first section, "Enrollment Requests", contains four rows of data: "Pending: 0", "Approved: 0", "Denied: 0", and "Cancelled: 0". Each row has a text label on the left and a white input field containing the number "0". Below this section is a button labeled "View Requests". The second section, "Qualified MWs", contains two rows: "Summer:" and "Winter:", each followed by a white input field. The entire dashboard content is enclosed in a red rectangular border. The "View Requests" button is also highlighted with a red border.
