Background

- The current RNA Base Case inclusion rules reside in Section 3 of the Reliability Planning Process (RPP) Manual 26 :
http://www.nyiso.com/public/webdocs/markets_operations/documents/Manuals_and_Guides/Manuals/Planning/rpp_mnl.pdf
- The draft proposed rules are posted under the October 10 ESPWG meeting materials

DRAFT – FOR DISCUSSION PURPOSES ONLY

Goals

- To implement lessons learned from past planning processes and to provide clarity
- To recognize the complexity and uniqueness in the development of proposed projects
- To allow for reasonable assumptions in consideration of all available information

Next Steps

- Target the October 26 ESPWG with updates in consideration of stakeholder comments
 - Send comments to lpopa@nyiso.com by October 17, 2017
- The Reliability Planning Process Manual #26 will be updated and reviewed by ESPWG, TPAS, and the Operating Committee in time for application in the 2018 RNA.

The Mission of the New York Independent System Operator, in collaboration with its stakeholders, is to serve the public interest and provide benefits to consumers by:

- Maintaining and enhancing regional reliability
- Operating open, fair and competitive wholesale electricity markets
- Planning the power system for the future
- Providing factual information to policy makers, stakeholders and investors in the power system
