

# MSWG Update

April 27, 2005 BIC

Agenda 6f

Prepared by:

Liam Baker

# Voltage Support Services

- Spirited discussion on several issues:
  - Proposed changes to testing requirements
    - Tests to be in Summer Period only
    - Data submittal electronic only
    - Suppliers would measure “net” capabilities, both lagging and leading
  - General Consensus to the above

# Voltage Support Services

- Proposed changes to compensation rate:
  - Adjustment necessary for change from gross to net measurement of lagging capability
  - Adjustment necessary to account for inflation
  - Consensus not completely reached on the above
  - Open issues:
    - Specific translation of \$/MVAR rate
    - Appropriate rate of inflation
    - Depreciation of Supplier equipment
