Attachment G. Bidding Rules for using the HQ Proxy Bus as a POI or POW ~~Initial~~ in a TCC Centralized Auction and/ or a TCC Reconfiguration Auction

The following PTID designations will allow the NYISO to identify TCC bids and properly model those bids as they relate to the HQ import limit in the TCC auction.

PTID 323601 must be used for the POI or POW (as appropriate) for a bid to purchase TCCs from the HQ Proxy bus to an internal New York bus or zone and from an internal New York bus or zone to the HQ Proxy bus.

PTID 23651 must be used for the POI or POW (as appropriate) for a bid to purchase TCCs from the HQ Proxy bus to another external proxy bus (e.g. NE Proxy, OH Proxy, PJM Proxy, Cedars Proxy) and from another external proxy bus to the HQ Proxy bus.
