certifications, acknowledging that the NYISO is relying upon these certifications in connection with the renewal of the Historic Fixed Price TCCs:

2. LSE expects, as of the date of this letter and throughout the next year from the renewal date of the Historic Fixed Price TCCs, to both (i) be legally obligated to serve the Load that it historically served under the ETA or a portion of that Load at least equal to the number of Historic Fixed Price TCCs that it elects to renew (subject to the rounding convention described in the NYISO's tariffs); and (ii) need the transmission capacity between the Point of Injection and Point of Withdrawal specified in the ETA to serve that Load.
